VIOLENCE THREATENS NEW PARTY

Rival Factions Will Try to Rule Convention Today by Force.

PATTISON MEN CAPTURE HALL

Col. McClure Resigns His Membership and Declares for Pennypacker.

HOT ARRAIGNMENT OF THE DEMOCRACY

By CHESTER D. POTTER,
Staff Correspondent.

Philadelphia, Pa., Sept. 2.—The Union party convention tomorrow will be a sensational, if not a sanguinary, affair. Violence is predicted, and the result will turn upon the show of strength made by the opposing factions.

At 10 o'clock tonight the Guffey-Wanamaker faction scored a point by taking possession of the hall. Attorney Harry A. Mackey led a body of 100 lusty scrappers into the building, and he has orders to hold it at all hazards.

The Union party faction favorable to Pennypacker—that is, the Independent Republicans who controlled the organization before it was subsidized by the Democrats—say they will enter the building at the hour appointed to hold the convention, and that they will remain and transact business, despite the efforts of the Democrats and their allies.

There will be two conventions, two sets of officers and two rolls, and both conventions will try to do business in the same hall. One or the other will have to give way. The anti-Pattison faction declares it will not bolt and will remain on the ground if it takes all winter to freeze out the other fellows.

Rival State Committees.

Preparatory to the struggle each faction held "state committee" meetings today. Rolls were made up and temporary officers agreed upon. The anti-Pattison faction met this afternoon at the Continental hotel. John W. Fechin presided. Twenty-one were present. Twenty-six signed the call. Resolutions censuring State Chairman Riter for having allied the organization with the Democrats were adopted.

At 8 o'clock tonight Chairman Riter and his friends on the state committee also met at the Continental. Ex-Postmaster Thomas L. Hicks presided. It was decided that Hicks should be temporary chairman of the convention, and the following were designated as secretaries: George E. Mapes, Philadelphia; Charles E. Boger, Lebanon; Harry Davis, Allegheny, and Plummer Jeffries.

It was recommended that the convention indorse Robert E. Pattison for governor, George W. Guthrie for lieutenant governor and an Independent Republican for secretary of internal affairs. The lobbies were filled with Democrats and it was apparent that they were in charge.

Col. McClure's Letter.

The following is in part the letter of Col. Alexander McClure to Chairman Frank Riter:

Dear sir—I herewith send you my formal resignation as a member of the Union state committee.

The contest for delegates to the Union state convention was made a grotesque and pitiable mockery of the high aims and patriotic efforts of the spontaneous political upheaval that called more than 50,000 Republicans in this city to revolutionary action one year ago, and that asserted its omnipotence in the eastern and anthracite sections of the state.

As a member of the Union state committee I advised against calling a state convention this year, as it was evident, when the committee met some weeks ago, that the Union party had no organization, or even existence, in two-thirds of the counties, and there was no substantial constituency to be voiced in a state assembly. It was evident that a party without tangible existence would open an inviting field for machine leaders of both the great parties to lock horns in auction-block political methods, to control an entirely responsible convention to federate either Pennypacker or Pattison, both of whom were equally hostile to the Union party movement.

I would gladly and earnestly work and vote to overthrow political corrupion in city and state, but how can such a battle be made when men in open command of the Pattison campaign in this city are the men who were conspicuous in the legislative lobby to give the needed Democratic votes in senate and house for every legislative infamy of the last session?

It is due to the Republican legislators to say that without the active aid of the so-called Democratic leaders and legislators none of the disgraceful laws of the last legislature could have been enacted.

These same Democratic leaders who are at the forefront of the Pattison leadership of this city were the implacable opponents of fusion last year, and when the head of the Democratic party organization said the willingness of the machine leaders in legislature was finally forced to retire, ex-Gov. Pattison took his place with the declared purpose to defeat fusion—a pledge that was not fulfilled only because honest public sentiment made it impossible.

I shall heartily support Judge Pennypacker for governor. His political environment is quite as healthy as that of his competitors, and his personal integrity and admitted ability give the best assurance of honest state administration.

I have known him personally and well for 30 years and have never found a blemish upon his political or private record. He was not a party to his own nomination and he is free to accept the duties of the high office and perform them with eminent credit to himself and with the largest benefits to the people of our great commonwealth.

But there are other and most vital questions involved in the contest which were in some degree involved in the contest of last year. The country is enjoying a degree of industrial and commercial prosperity unexampled in our history, and our honored flag and beneficent institutions have been extended into distant lands to illustrate to the world the grandeur of our free government and its ability to command the markets of every clime for American labor.

All these great achievements have been attained against a censorious and quibbling minority marshalled under the banner of *Democracy*. It has stumbled; it stands before the

STRIKERS APPLY FLAMING TORCH TO A COLLIERY

Guards Fire Upon Incendiaries and Several Are Injured.

THE TWO VIRGINIAS ASKED FOR TROOPS

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Bramwell, W. Va., Sept. 2.—The situation in the Flat Top coal field is extremely critical and the skirmish between the strikers and the guards at the Pocahontas Collieries Company's mines today, after the firing of the mine by the strikers, has greatly enraged the miners from the fact that several on their side were severely injured. Adjt. Gen. Baker, who has been in this section for a few days looking over the territory, left last midnight for other fields, informing the operators before he left that he thought the presence of the militia unnecessary at that time.

The outbreak of today probably will change his opinion, and it is thought here that before tomorrow night troops will be either in the Flat Top region or on their way there. The Pocahontas Colliers Company have the fire in their mine practically extinguished tonight, but have doubled their force of guards, as another attack is feared any hour.

Many shots have been fired from ambush in the direction of non-union miners going to and from work in the Flat Top field.

This morning strikers applied the torch to various portions of the Pocahontas Company's mine near the west entrance, which is on the Virginia side. The guards and strikers fired volley after volley at each other, but it is not known that any one was killed. The governor of Virginia was appealed to to send troops to Pocahontas at once. Three strikers were injured, the result of the conflict with guards soon after the fire was discovered.

The mine in which the fire is in progress is known as the Baby mine, and is the same one in which 20 miners and a number of officials lost their lives several months ago, and the same where 200 miners lost their lives a dozen years ago. It is the largest on the line of the Norfolk & Western railroad, and has four main entrances. Every entrance is now being heavily guarded. Mine officials expect the governors of both Virginia and West Virginia to comply with their request for troops.

PRESIDENT AT WHEELING.

He Will Spend Two Hours There Next Saturday Morning.

WORCESTER, MASS., Sept. 2.—President Roosevelt will leave Oyster Bay on the morning of September 5 for Washington, from which point his special train will leave over the Baltimore & Ohio railroad at 7:30 p. m., for Wheeling, which will be reached on the morning of September 6. A two-hours' stop will be made.

The president will arrive at Chattanooga on the morning of the 7th and will spend the day looking over the battlefield of Chickamauga. On the 8th he will address the convention of locomotive firemen at Chattanooga, leaving at 1 p. m. for Knoxville, which point will be reached at 5 p. m. Two hours will be spent in Knoxville, and at 7 o'clock he will leave for Asheville, arriving there at 8:30 on the morning of the 9th. At 12:30 he will leave for Oyster Bay, arriving there on the night of the 10th.

STRIKING MINERS AND STATE MILITIA LIKE BEDFELLOWS

Soldiers Jeer at Non-Union Men in the West Virginia Coal Field.

NO NEED FOR GUARDSMEN

[SPECIAL TELEGRAM TO THE GAZETTE.]

Thurmond, W. Va., Sept. 2.—The governor's action in sending militia into this territory has had a result far from what was no doubt intended. It was the belief of the operators that immediately upon the arrival of the militia the strike would be broken. The consequence is that today there seems to be a perfect understanding between miners and militia, and in view of the fact a message has been sent to Gov. White, signed by every business and professional man in Thurmond and many of the county officers, telling him that the soldiers are not needed.

Today probably 100 non-union men were induced to quit work by members of state militia who belong to unions. This has greatly annoyed the coal operators.

The miners say that they prefer to have the men as guards who they know will do their duty, than to have irresponsable deputies who are the hirelings merely of the coal companies and that until the coming of the militia they did not know what the protection of the law was.

This morning as non-union laborers started to work at one of the lower operations they were greeted by cries of "scabs" from the soldiers who were guarding the mine. It is noticed that the understanding between the miners and their friends among the soldiers is complete. The operators admit that they made a mistake when they had the militia brought here and it is a question of only a few days until the influence which induced the governor to order auto guards here will be used to have him remove the militia.

The circulation of the rumor that there was trouble in this field and the necessity existing for soldiers has rendered it more difficult for the operators to get non-union labor.

NON-UNION MINERS WALK OUT IN PEACE

Panther Creek Valley Strikers Become Quiet Again—Two Men Assaulted at Wilkesbarre.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

TAMAQUA, Pa., Sept. 2.—This morning Company C of the Twelfth regiment escorted the non-union men in the Panther Creek valley to work without being interfered with. The officials of the company claim that almost 300 men reported for duty. This claim is contradicted by the strike leaders.

WILKESBARRE, PA., Sept. 2.—Richard Roberts, mine driller, and John Devitt, machinist, employed by the Lehigh Valley Coal Company at their forty-fourth colliery, were attacked by four men while on their way to work today. Roberts was struck on the back by an iron bar and Devitt had a miners' needle run through the fleshy part of his leg. The injured men called for assistance, when their assailants fled.

President Mitchell of the United Mine Workers returned from Philadelphia this evening. He stated that he was pleased with his trip and reception in the Quaker city. So far as he was aware there was no change in the strike situation.

President Baer's Home Guarded.

READING, PA., Sept. 2.—(Special.)—Several special officers have been ordered to guard the vicinity of the residence of President Baer of the Reading railway. At 2 o'clock this morning three men were discovered in the large yard of the house, apparently hiding in the bushes and when ordered away took to their heels.

LOST BABY TRAVELED MILES TO SEE HIS GRANDFATHER.

Just how a child 4½ years old when lost in the downtown streets could find his way to the home of his grandparents in the Thirty-Fifth ward puzzles the parents of Malland Weisberger. The family lives at the Hotel Nutteridge on Diamond street. The boy went out with a nurse yesterday and became lost. Fearing he had been kidnaped the mother reported the case to police headquarters and descriptions of the boy were sent out.

When the father returned from work yesterday evening he suggested that the boy might have gone to his grandfather's. Investigation showed that this was true. The child had boarded a Hilltop car, although without the money to pay the fare, and succeeded in reaching the right place. He could not tell how he accomplished it.

Herbert Baldridge of No. 12 Dyke street was another boy reported to the police yesterday as missing. Nothing is known of his whereabouts since Friday night. When he left home he was wearing dark knee pants, a gray coat and a cap.

WOULD HIT ONLY EVIL OF TRUSTS

President Explains His Attitude Toward Big Corporations.

DESTRUCTIVENESS MUST BE AVOIDED

Industry Shall Not Be Paralyzed by Striking Blindly at Capital.

AMONG THE ROSES OF MASSACHUSETTS

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Dalton, Mass., Sept. 2.—President Roosevelt today took notice of his return visit to Massachusetts by delivering at Fitchburg another speech on the trust question in order that he might fully answer his critics and more clearly define his attitude. He made a defense of the army in the Philippines during his speech at Springfield. The impression had gone forth that any views he might express regarding the acquisition of territory by the United States would be coldly received, but the demonstrations of approval which greeted his utterances dispelled this idea.

Frequent stops were made and at each place the president delivered a speech. Fitchburg's reception was notable. While riding up the street the president was given a shower bath of roses. A canopy of bunting had been erected and from the center was suspended a huge bell. As the president's carriage passed under it, an unseen hand loosened the covering of the bell and an avalanche of loose roses fell over him.

A Cuban's Gratitude.

There was another interesting feature. In the midst of the silence which reigned while the president was giving his views on the trust question, "Vive le Presidente," rang out in a sharp voice and a Cuban patriarch who gave expression to this sentiment, was loudly applauded.

In the afternoon at Worcester, the president lunched with Senator Hoar. At Springfield another hearty greeting was given. The address there followed a brief visit to the national armory. On the way to the train the president's carriage stopped in front of the Veteran's Memorial Home, and he spoke a few words to the old soldiers who had drawn up in front of the Home.

Gov. Crane tonight has the president as his guests here. The town is beautifully illuminated. Early in the morning the president and his party will be given a drive from Dalton to Stockbridge, and the opportunity afforded to view the picturesque scenery of the Berkshire hills.

Make His Trust Ideas Plain.

The president had a restful night at Northfield. He took his train promptly at 8:20. The first speech was at Millers Falls, where a large crowd had gathered. The president expressed pleasure at meeting there the members of the Second Massachusetts regiment, which served with him in Cuba. At Gardner 10,000 people greeted him. Harvard flags were everywhere in evidence and as the president ascended the platform a number of college boys gave the college cheer. In his address at Fitchburg he devoted himself almost exclusively to the trusts, which he intended as an answer to his critics. He said in part:

"If some of those who have seen cause for wonder in what I have said this fall on the subject of the great corporations, which are popularly although with technical inaccuracy known as trusts, would take the trouble to read my messages when I was governor, what I said on the stump two years ago, and what I put into my first message to congress, I think they would have been less astonished. I said nothing on the stump that I did not think I could make good, and I shall not hesitate now to take the position which I then advocated.

After the Evils Only.

"I am not going to try to define with technical accuracy what ought to be meant when we speak of a trust. But if by trust we mean merely a big corporation, then I ask you to ponder the utter folly of the man who either in a spirit of rancor or in a spirit of folly says 'Destroy the trusts!' without giving you an idea of what he means really to do. I will go with him if he says 'destroy the evil in the trusts' gladly.

"Those men who advocate wild and foolish remedies which would be worse than the disease, are doing all in their power to perpetuate the evils against which they nominally war, because if we are brought face to face with the naked issue of either keeping or totally destroying a prosperity in which the majority share, but in which some share improperly, why as sensible men we must decide that it is a great deal better that some people should prosper too much than that no one should prosper enough.

Enterprise Must Be Encouraged.

"Now it does not do anybody any good and it will do most of us a great deal of harm to take steps which will check any proper growth in a corporation. We wish not to penalize but to reward a great captain of industry, or the men banded together in a corporation who have the business forethought and energy necessary to build up a great industrial enterprise. A big corporation may be doing excellent work for the whole country, and you want, above all things, when striving to get a plan which will prevent wrong-doing by a corporation which desires to do wrong, not at the same time to have a scheme which will interfere with a corporation doing well, if that corporation is handling itself honestly and squarely.

"I believe something can be done by national legislation. It is not in my power to say I know. When I talk to you of my own executive duties I can tell you definitely what will and what will not be done. When I speak of the actions of anyone else I can only say that I believe something more can be done by national legislation.

"I believe it will be done. I think we can get laws which will measurably increase the power of the federal government over corporations; but, gentlemen, I believe firmly that in the end there will have to be an amendment to the constitution of the United States conferring additional power upon the federal government to deal with corporations. To get that will be a matter of difficulty and a matter of time."

YOUNG MAN KILLED BY OFFICER'S SHOT IN M'KEESPORT

Harry Weber Dead Because He Ran When Policeman Called to Stop.

TAKEN FOR A BURGLAR

Harry Weber, 18 years old, a well-known and popular young man of McKeesport, lies dead at the McKeesport hospital, the victim of Officer Samuel McSebney's unerring aim.

While patroling his beat in the vicinity of Versailles avenue and Huey street, shortly before 1 o'clock this morning, Policeman McSebney of the McKeesport force, noticed two young men standing near Postmaster Harrison's residence on Huey street. The officer called on the young men to halt, but instead of this they began running up Huey street. The policeman once more called for them to stop, but his command was ignored. He then pulled a revolver from his pocket and fired one shot. The bullet entered Weber's forehead above the left eye and Weber fell to the ground unconscious. When the officer reached his side blood was oozing from the wound. Weber's companion, whose name could not be learned, also ran up to the body when he saw his friend drop. A call was sent to the McKeesport hospital as soon as possible and the young man was taken to that institution. When the ambulance arrived with its burden about 1:20 this morning, and the attendants went to remove the body, they found the young man to be dead. He was taken into the hospital, however, and the coroner notified of the shooting.

Officer McSebney was taken before Chief of Police Patrick Morrissey, and the consultation was still going on at 2:30 this morning. Weber's companion told the hospital authorities this morning that they were returning from a party at a friend's home, when Weber was shot.

Weber was 18 years old and single. He was employed by his brother-in-law, Benjamin H. South, as a pressman, in the latter's printing establishment. He was well known among the young people of McKeesport and was a very bright and popular young man. The indirect cause of the shooting was the numerous robberies which have been reported to the McKeesport police from the district in which young Weber so tragically met his death. The police covering that beat were notified lately to stop all suspicious characters and night prowlers, and if they did not stop when called upon, the officers should resort to the use their weapons.

The remains will lie at the hospital until after the coroner's inquest, which will likely be held today. The hospital authorities said last night that nothing of a suspicious nature, such as burglars' tools, could be found on Weber's person.

ARRANGED TO MEET STONE

Large Representation of Railroad Men to Discuss Arbitration With the Governor.

HARRISBURG, PA., Sept. 2.—(Special.)—For issuing his "shoot to kill" order Gen. Gobin was denounced by the state legislative board of Railroad Employes of Pennsylvania in resolutions adopted at today's session in this city. Formal action was taken also by the board on the refusal of the "coal trust" to arbitrate with the striking hard coal miners and the recent utterance by President Baer of the Philadelphia & Reading railroad.

The board donated $122 to the miners' strike fund and arranged for a large representation of railroad men at their meeting with Gov. Stone on Thursday to urge him to take immediate steps to bring about a settlement of the differences between the miners and the operators.

STORMY COUNCIL MEETING

Policeman Is Fined by Burgess During Session of Scottdale Borough Fathers.

SCOTTDALE, PA., Sept. 2.—(Special.)—Probably the most exciting meeting of the borough council ever held was that of last night. Burgess J. P. Owens preferred charges of incompetency and neglect of duty against Policeman William McWhorter. An affidavit sworn to by C. W. Brooks, a street car conductor, charges Officer McWhorter with immorality and conduct unbecoming an officer.

McWhorter entered a positive denial. He claims that Brooks' charges are spitework because he was ordered to move his car on several occasions when it was blockading the street. The burgess asked McWhorter what he was doing on a certain evening. McWhorter replied in a vehement manner and used language for which he was promptly fined by the burgess.

"Here's your money. I am prepared to pay any fine imposed on me," remarked the officer, as he laid the coin on the secretary's table. It was finally decided to postpone further investigation until September 15.

FIVE SHIPS AND THREE FORTS LESS

The Technical Results of Yesterday's Game Quite Terrible.

ARMY AND NAVY BOTH SCORE WELL

Ships Claim They Surprised the Coast Denfenses and Silenced Them.

REAL CAUSUALTIES CAUSED BY ACCIDENT

On Board The Gazette Dispatch Boat, Avenel, via New London, Conn., Sept. 2.—Again today did both sides score in the war game between the army and the navy.

This is the claim of the army: The Massachusetts, Alabama and Puritan were destroyed or disabled by mines; the Brooklyn and Indiana met a similar fate from the guns of the forts. To offset these losses, the navy claims that Fort Terry, on Plum island; Fort Michie, on Gull island, and Gardiner Point battery were silenced.

Admiral Higginson admits that his vessels discovered defenses of which he had not been aware, and that one of his vessels, the Scorpion, was put out of action by a hidden obstruction.

This is the first assault that the fleet has made upon the forts and the navy officers maintain that if the others fall as easily as these were conquered, it would be no desperate undertaking for a hostile force of adequate strength to run all the batteries guarding the eastern approaches to New York and lay that city at the mercy of the invaders.

Latest Night Maneuver.

At 8:40 tonight, after the day's engagements between ships and forts, a fleet was sighted going rapidly in the direction of Gardiners bay. It was claimed at headquarters that the location of heavy draft vessels was known to be in this district, while the lighter draft ships were believed to be sailing in the direction of Newport.

The long night's work began with a reconnoissance by the smaller vessels of the fleet. The fleet was then riding at anchor off Block island.

It was in the gray of early morning when the two fleet divisions joined, to separate immediately, the Brooklyn and the Massachusetts steering to the westward of Gull island, upon which is Fort Michie, and the four ships under Higginson steering to the eastward, so as to bring that fort under a cross fire from six heavy ships of war. Searchlights from the forts were still glowing when the two squadrons began steaming for the enemy. Every gun was loaded and every man was at his post.

On the opposite side of the island the Kearsarge and her grim consorts kept on their course, still undiscovered by the defenders of Fort Michie and those of Gardiners Point. It was at 4:42 when the navigator of the flagship reported that the batteries at Gardiners Point were within 4,000 yards' range.

The Battle Begins.

"Commence firing," commanded Capt. Hemphill, from the bridge of the Kearsarge, and in an instant the great battleship was half hidden in flame and rolling clouds of smoke. At the same instant the storm burst all along the line. From the other side of the island came the booms of the Brooklyn's and the Massachusetts' guns.

Officers of the Brooklyn and her consort, the Massachusetts, were unanimous in pronouncing the operations absolutely successful.

Capt. Hobbes, speaking for the army, said: "We have nothing to fear but much to learn. Under the fire of these two ships the searchlights on Great Gull and Plum Islands and the signal station on Little Gull must have been destroyed very early, and the batteries, though not destroyed—for it has long been settled that fleet bombardments cannot destroy land fortifications—were silenced."

Incidentally it was learned that the Massachusetts had narrowly escaped collision with the Kearsarge when the two were getting under way from their anchorage at Block Island last night.

Three ships supposed to be battleships are anchored just east of Fishers Island in the direction of Gardiners bay. The presence of battleships in that vicinity leads army officers to believe the navy will make an attack before daybreak.

Casualties, One Killed and Two Wounded.

While the guns of Fort Wright were firing upon the fleet today Hard Boy was instantly killed by the premature discharge of a 12-inch gun; Harry A. Davis, at the hospital, is believed to be dying from injuries received, and Samuel Clevenger was severely wounded. Several others suffered slight injuries. All the men were privates of the Second company, coast artillery, of the regular army.

Edward Roy had put a 30-pound charge into the gun and had just pushed the breech block into place without locking it, when the explosion occurred. It is supposed that a piece of burning rag had been left in the gun. Roy was literally blown to pieces. Davis was hit in the chest by a piece of flying bone.

POLITICAL FEUD BREAKS OUT IN BLOODY BATTLE

Seventeenth Ward Quarrel Causes Double Duel Between Families.

TWO MAY DIE FROM INJURIES RECEIVED

Hostilities were resumed in the Hughes-Deffler political feud in the Seventeenth ward on Sunday afternoon, and two of the participants are lying at their homes in a critical condition as a result. The scene of the battle was within the city limits and revolvers and knives were the weapons. Dr. A. C. Magill of No. 4404 Penn avenue is in constant attendance on the wounded men, and the politicians of the Seventeenth ward and a prominent official of the department of public safety have been using effort to keep the probable fatal battle a secret. Nicholas Deffler of Forty-second and Geneva streets is probably the most dangerously wounded of the four participants. He was badly slashed about the face and breast, while the others were also cut and beaten, so that all were in a serious condition.

The feud between the Hughes and Deffler families has existed for years. Three years ago they fought a similar battle to that of Sunday, but none of the participants died of their injuries.

On Saturday night Edward Hughes of No. 4421 Calvin street, 42 years old, met John Deffler of Geneva street, 40 years old, at Forty-second street and Penn avenue. On sight the men went at each other. They were both placed under arrest, but their brothers—John Hughes, 45 years old, and Nicholas Deffler—came along and, stepping between the officer and the men, released them from custody.

The fight created considerable excitement at the time, but nothing more was thought of it. Through some unknown channel the brothers arranged a meeting for Sunday to settle the dispute. They armed themselves with revolvers and knives and went to a secluded spot near Lincoln avenue and the boulevard.

The four brothers were followed, unknown to them, by William Hughes, son of John Hughes, and August Meisold. John Deffler and Edward Hughes prepared for the conflict. They started to fight with their fists and, from what could be learned last night, Edward Hughes was being overpowered by Deffler's blows.

This enraged his brother John, who, it is alleged, interfered, and revolvers began to get into action, two shots being fired at John Deffler. Nicholas Deffler became engaged in the fight at this point. He drew a knife and, it is said, challenged John Hughes to defend himself. Hughes threw away his revolver and also pulled out a knife.

The two men cut and slashed each other until they became exhausted. While the men were fighting with knives the struggle between Edward Hughes and John Deffler continued. Neither of the two paid any attention to their brothers' conflict with knives. It was learned last night that the witnesses interceded when the men were bleeding and exhausted and separated them.

All were taken to their homes in carriages. Dr. Magill was summoned and has been in constant attendance on Nicholas Deffler and John Hughes, who are in a critical condition. All the men are engaged in mill work and are well known in the Seventeenth ward.

Through the efforts of an official in the department of public safety the affair has been concealed. No effort has been made by the police to locate the men who broke away from the officer during the street fight on Saturday night. The families became hostile with each other over politics years ago and many encounters have resulted on different occasions.

GIRLS RESCUED FROM FIRE.

Summer Hotel Burns and Guests Have Narrow Escapes.

ERIE, PA., Sept. 2.—(Special.)—The large hotel at Grove House park, a summer resort, was destroyed by fire early this morning. Sixteen people were asleep in the building and all had narrow escapes.

Two servant girls were cut off from retreat through the building by the flames and crawled out through third-story windows to the cornice. From there they were carried to the ground by Charles Cole, who climbed to the roof on the supports of the verandas. The loss is $15,000, partly insured. The hotel will be rebuilt.

BUTCHERS ORGANIZE.

Retailers Prepare to Fight Certain Action of Wholesalers.

The Retail Butchers' Protective association, which has been forming for several months, was fully organized last evening at a meeting of over 300 butchers in Freker's hall, No. 5908 Butler street. The main purpose of the meeting is to wage war on the custom the retailers say wholesale meat dealers have developed recently of selling meat at wholesale prices to boarding houses, saloons and other places, not doing large amounts such as the retailers think would justify the reductions. "The wholesalers have taken away half of our business. They will sell to any one who asks," said one of the retailers.

The officers elected last evening are: President, G. J. Kurtz, No. 4784 Liberty avenue; vice president, Andrew Lang, No. 3284 Penn avenue; secretary, M. Schlanger, No. 5145 Butler street; treasurer, George Wehrle, Forty-third and Foster streets. An executive committee will be appointed later.

FOUND IN RIVER WITH HIS SKULL BADLY CRUSHED

Philip McGettigan Is Third Brother to Be Picked Dead Out of the Water.

MURDER IS SUSPECTED

His Two Weeks' Pay, Which He Had With Him, Is Missing—Coroner Orders a Post Mortem—One Man Dies of Heat Prostration.

With the back of his head crushed in and two weeks' pay, which he had had in his pockets, gone, the body of Philip McGettigan was found in the Monongahela river, near the West Braddock bridge, yesterday afternoon. Philip is the third of the family whose body was found in the river within three years, his brother Edward having met death in the Monongahela, and Patrick, another brother, having been drowned in the Ohio.

McGettigan's friends are confident that he was murdered and the appearance of the body seems to bear out their statements. Coroner McGeary ordered a post-mortem, which was held yesterday by Drs. G. E. McGeary and E. M. Dean of Braddock. The body was discovered by O. D. Guteridge, the keeper of the West Braddock bridge, shortly after 1 o'clock yesterday afternoon.

McGettigan was 29 years old and single. He boarded with James Rager of No. 18 Spring street, Rankin. He was employed at the Carrie furnaces and was well known in Braddock and Rankin.

He was last seen alive on Sunday evening last, when, in company with John Manning and Andrew Rush, both of Rankin, he left his boarding-house.

When the trio reached Braddock avenue McGettigan excused himself from his companions and stated he would return to them in a short time. He was not seen by either of them afterward.

When found the body was fully dressed, with the exception of a hat. The back of the head was badly caved in as though he had been dealt a powerful blow with some blunt instrument. The face was badly swollen and other marks of violence were visible.

McGettigan received his two weeks' pay on Friday and had money when he left his companions on Sunday evening. When found yesterday, however, there was no money in his pockets. No time has been set for the inquest.

Peter Kaiser of Spring hill, Allegheny, died yesterday morning of heat prostration. He was employed at the Columbia foundry, in Thirty-fourth street, and was overcome while at work about 2 o'clock yesterday morning.

Mrs. Catharine Dietz died at her home, No. 21 Hamilton street, Allegheny, yesterday morning from injuries received on Sunday when a lamp exploded, burning her fearfully.

Robert Louden, aged 50, a watchman on the Pittsburgh & Western railroad at Undercliff, was struck by a Buffalo, Rochester & Pittsburgh train yesterday morning and instantly killed. He leaves a wife and family.

John Russa, an Italian, 35 years old, died at the Mercy hospital yesterday morning. He was admitted last Friday. The day before Russa was injured at "Price's hedge." This is all that is known at the corner's office.

The coroner was notified yesterday that an unknown Slav was killed by a fall of slate at the Lick Run mine at Bruces station on the Wheeling division of the Baltimore & Ohio railroad.

While playing in the kitchen in her home, Margaret Riley, 6 years old, of Glenmore avenue, Sheraden, was burned yesterday afternoon and died of her injuries last night at 11 o'clock. The accident took place in the presence of the girl's mother, who tried to save the child by pulling her burning garments off. The mother was badly burned.

THE WEATHER.

Yesterday was a decided improvement on the two preceding days in the matter of cooler and fairer weather. The thermometer registered a maximum of 87 at 4 p. m., and a minimum of 67 at midnight. The forecast from Washington predicts fair weather and slightly falling temperature for this vicinity today and tomorrow. The Gazette's weather service thermometers at the corner of Fifth avenue and Smithfield street registered the following yesterday:

country and the world today as bankrupt alike in leadership and principle.

National issues of the greatest moment are involved in the election of 1902. With such conditions presented in the present exceptional and substantial progress of patriotic advancement and material prosperity, I cannot vote for candidates whose party hope of success is in disasters to our army in the field, in compelled business and trade and in silent temples of industry, with headless homes for American workingmen. Yours truly,

A. K. McCLURE.

Chairman Clement's Warning.

Another red hot letter was received by Chairman Riter from Samuel Clements, Jr., city chairman of the Union party organization in this city. Mr. Clements furnished Chairman Riter with a list of the regularly elected Union party delegates in Philadelphia and insisted that their names be placed upon the roll.

"I am informed," proceeded Chairman Clements, "by the very best authority, and upon the most convincing evidence, that certain persons connected with the Union party state committee, who are also the paid servants of the Democratic machine or its bosses, are attempting to control the roll of the convention and the convention itself in the interests of their masters, the Democratic machine."

He warns Chairman Riter not to permit this program to be carried out. Mr. Clements then dissects the political career of Pattison, pays high tribute to Judge Pennypacker, who he declares he will support.

Chairman Rater replied briefly to Col. McClure, expressing regret at his resignation. His reply to Chairman Clements was non-committal, being that the roll would be made up tonight by the "state committee."

UNION PARTY VOTES WILL GO TO PATTISON

Local Delegates Are Tied Up in a Bundle and Delivered to Col. J. M. Guffey.

The 40 delegates to the Union party convention were last night shipped to Philadelphia. Before leaving they were tied down to Pattison, Guthrie and Coray. They will not be given their candidate until the convention assembles. It was denied that Col. Guffey is paying the freight.

The county committee of the Union party was called together at 7 o'clock last night in the office of Harry S. Paul. The purpose of the gathering was to elect delegates to the convention to be held in Philadelphia today. Of course Unionists abhor machines and bosses, but they suspended their feelings long enough to elect the slate made up several days ago. It had been said that William Flinn gave his "o. k" to the list, but Chairman Paul denies the story. These are the 40 men who will represent the county:

H. S. Paul, chairman; H. F. Davis, secretary; S. S. Steel, E. Y. Breck, W. H. Duff, W. J. White, A. M. Clark, H. W. Stevenson, J. M. Crouch, C. F. Ball, Fred M. Magee, E. B. Clark, John Flinn, J. C. Miller, T. M. Walker, G. A. Brown, V. J. Morgan, Capt. T. J. Hamilton, Dr. John D. Bell, W. S. Hill, A. L. Clark, W. A. White, Robert Steel, George F. Wigginton, Robert Smith, Robert S. Stephenson, William Gillett, H. S. Lydick, Harry K. Johnston, John C. Dicks, W. S. Munn, Thomas C. Rodgers, Freeman Morgan, W. J. Barr, T. C. Johnston, Harry Steel.

When Col. Guffey orders freight he wants it delivered. As a means of making sure of the delivery, this resolution was adopted before the slate went through:

Resolved, That the delegates to be elected at this meeting shall vote for the nomination of Robert E. Pattison for governor, George W. Guthrie for lieutenant governor, and E. A. Coray, Jr., for secretary of internal affairs, and also against every motion made in the convention in the interest of M. S. Quay and his candidates for governor and other state officers.

Even after placing shackles on the delegates of this "free and independent" party, the bosses were not satisfied to take chances on the crowd. Transportation was given each of the delegates, but credentials were not. These are to be withheld until these men who are to assist in "striking the shackles from the body politic" are rounded up in the convention. Then, if every man is willing to take an oath that Quay is a bad man and Guffey is an angel, they will get their bits of paper certifying that they were duly slated by Harry S. Paul, per order from some one.

J. B. Johnston, the acting secretary, tapped his inside pocket and then divulged a secret. He said that he had been made custodian of the 40 credentials and none of them would be given out until the local herd had been delivered. He insisted that this withholding of the certificates was not intended as a reflection on the fidelity of the delegates.

THE SCREWS ARE BEING PUT ON CITY EMPLOYES

Each Day Sees the Political Ax Lopping Off Their Heads.

TWO DIRECTORS ACTIVE

Leslie and McCandless Are After Any Subordinate Whose Political Loyalty Is Questioned—Two of Douglas' Friends Fired Saturday.

A general shake-up, involving the dismissal of many city employes, is scheduled to take place within the next 30 days in the department of public safety and the department of public works. The dismissals are not to occur all at one time—the performance is to be a daily one, a continuous affair, as it were. The victims have all been marked in advance, however.

The removals from the public safety department are being made by Director A. H. Leslie. Those from the public works department are being ordered by Director J. Guy McCandless. The object of removing a few at a time is to prevent any excitement in the ranks of the employes. A private investigation has been made and is being made by the directors, and where the slightest evidence of any political unfaithfulness on the parts of the employes is found they are promptly listed for dismissal.

Three employes were dismissed yesterday by Director A. H. Leslie. Morris J. McCarthy, a policeman reporting at No. 6 police station, was removed for no cause that he knows of except that he has been suspected of allying his political interests with Councilman Robert H. Douglas. A. H. Rodgers, an engineer in the Safety building, of the Twenty-first ward, was removed for the same cause. Both men have been in the employ of the city for many years. The third man was Charles McCrea, a policeman reporting at the Central police station, who was dismissed without any reason being given.

Director Leslie is alleged to have declared that he will not tolerate any political friction. For many weeks he has had men employed to look into the political relations of the men employed in the public safety department. When the position of any particular employe is questioned, some one is detailed to look into his case, and if the detective confirms the allegation, the unfortunate is immediately discharged.

The same conditions prevail in the department of public works. Director McCandless has declared against any employe of this department whose political relations with the machine organization are doubtful.

Councilman Douglas, when seen last night, said he had been informed that the shake-up among the various departments of the city was scheduled.

"They will only discharge a few of the employes at a time, but there will be many dismissals made during the month," said the councilman last night. "The number seems small when they are discharged, but at the end of the month the total will be enormous."

There has been more or less criticism on the declaration of Superintendent of Police John McAleese to the effect that the desk sergeant at the various police stations are being overworked and that he needs clerks to assist them.

It was learned yesterday that these sergeants are being burdened with the duties of the various private detective and home protective associations in this city. The sergeants are being compelled to act as time clerks for several hundred officers connected with these private associations.

These officers are required to call up the sergeants at the various police stations every hour. The corporations in whose employ they are, are conducted by private individuals. The city, as far as can be learned, does not receive any compensation for the work done for these private concerns by the police sergeants. Still Superintendent McAleese declares that they need clerical aid at the police stations.

Value Property at $1,250,000.

Affidavits were filed by James J. Buchanan, James M. Bailey, Augustus Hartje, J. H. Goering, F. M. They declare the property is worth $1,250,000.

QUAY'S ADVISERS GATHER TODAY

HARMONIOUS MEETING OF STATE COMMITTEE EXPECTED.

The Only Cloud Hovers Over the Allegheny County Delegation—Pennypacker and Penrose to Speak at the Center Hall Grange Picnic.

BY CHESTER D. POTTER,
Staff Correspondent.

PHILADELPHIA, PA., Sept. 2.—Chairman Quay anticipates a harmonious meeting of the Republican state committee, which meets at 2 p. m. at headquarters tomorrow. All of the members-at-large have said they would be on hand, as well as the full list of committeemen.

The only talk of interesting development hinges on the possible action of the Allegheny county delegation. It being rumored that resolutions of diversified character have been prepared. It is impossible to anticipate the committee's action further than to say that Judge Pennypacker will not be instructed to decline support tendered, no matter from what source.

Secretary W. R. Andrews announced many contributions, among others being that of Assistant Postmaster G. R. Knowles of Philadelphia, whose check was more than 3 per cent of his salary.

Judge Pennypacker and Senator Penrose have accepted invitations to speak at Center hall, September 16, at the annual grange picnic. They will be present September 18 at the convention of the State league of Republican clubs, which will then be in session at Erie. After the Erie meeting the judge will rest a few days and then start on his regular itinerary of the state.

Chairman Quay was on deck at state headquarters again today, having rested at the shore since last Wednesday. He broke silence long enough to deny authorization of an interview which, judging by the action of today's stock market, was inspired by Wall street.

In some morning papers the senator was quoted as having said that, while he did not know on what Senator Platt based his prediction that the mineral strike would end in two weeks, he (Quay) knew personally that the strike would be settled by Senator Platt. When shown the interview this afternoon, Col. Quay said:

"I made no such statement. I have no information as to the possible duration of the strike. The miners allege they will be able to keep it up at least until January 1."

STILL AFTER WABASH.

Pennsylvania Railroad Files a Bill to Restrain Goulds from Crossing Its South Side Property.

The Pittsburgh, Cincinnati, Chicago & St. Louis Railway Company yesterday filed a bill in equity in common pleas court No. 3, to restrain the Pittsburgh, Carnegie & Western Railroad Company from crossing its property at South First street. The plaintiff company alleges it acquired the property in 1863, that it is now occupied by a bridge, and that the defendant cannot construct its lines without damage to the plaintiff.

The bill also sets forth the defendant proposes to construct a branch to connect with the Monongahela Connecting road and the other to connect with the proposed line of the Allegheny & South Side Railway Company, not for the use of the public, but to the works of Jones & Laughlins and the American Steel and Wire Company.

It is set forth the right to cross Carson street has not been obtained from the city, and that the defendant has no intention of constructing the branches, but that it is only a "paper location" to give color to an appropriation of the plaintiff's property.

OHIO DEMOCRATS UNDER WHIP OF TOM L. JOHNSON

Cleveland Mayor's Platform Goes to the Convention Without a Scratch.

STATE COMMITTEE FIGHT

Opposition Gets but Seven of the Twenty-One Members After a Fierce Struggle—Temporary Organization to Be Made Permanent.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Sandusky, O., Sept. 2.—Mayor Tom L. Johnson of Cleveland won a decisive victory today in the preliminary meetings of the Democratic state convention, which meets tomorrow. Ever since he was selected as chairman of the convention by the state central committee it has been the general opinion that this occasion would be made the initial public opening of his candidacy for the next Democratic nomination for the presidency. In that respect his success has been phenomenal. No Ohio candidate for the presidency ever had more unanimity of sentiment in his favor among the delegates at a state convention than was shown at the meetings tonight by congressional districts for the selection of officers and members of the various committees.

Committees of the convention, the committee on credentials, permanent organization, and rules and order of business are almost unanimously with him for anything he wants. One of them gave him the double honor at once of agreeing on a report to make permanent the temporary organization of the convention.

The Johnson men were opposed only in the selection of members of the committee on resolutions and members of the new state central committee, and in some districts these contests were closer and more bitter than expected. The Johnson men secured 14 of the 21 state committeemen.

The Johnson men made no concessions and in some cases "gave no quarter" to their opponents. This caused the minorities on the two committees named at first to fight, but the fighting was soon over. When the roll of the committee on resolutions was called the members from the First, Third and Eleventh districts opposed the indorsement of Bryan and the Kansas City platform, and other Johnson planks, but the Johnson platform finally carried without changes and will be so reported to the convention tomorrow, and adopted without any minority report or other obstruction.

It has been customary always first to appoint a sub-committee of three or five to draft a platform and report the same to the full committee, but that was found not necessary tonight, as Mayor Johnson handed the full committee his "draft" and the full committee soon completed its work.

The following were elected members of the state central committee:

Louis G. Bernard and John G. Roth, Hamilton; William F. Mason, Butler; Val Lee, Shelby; G. M. Saltzgaber, Van Wert; Jacob Burst, Clinton; W. S. Thomas, Clark; W. J. Mayhook; John Bolen, Lucas; George Hutt, Pike; James A. Devine, Ross; Fred J. Heer, Franklin; John Stang, Erie; W. G. Bebee, Morrow; E. O'Neal, Washington; Thomas Richmond, Belmont; William Anderson, Tuscarawas; S. L. Clark, Mahoning; W. W. Padgett, Trumbull; Charles P. Salen and Harry F. Payer, Cuyahoga.

NEW TEACHERS CHOSEN.

Allegheny School Controllers Make Changes in the Teaching Force. Schools Open Auspiciously.

At a meeting of the Allegheny board of school controllers last night there was a long discussion over the report of the committee on rules, which recommended favorably a resolution that new teachers nominated by the local boards, by unanimous consent be placed on trial for a limited time under regular pay. The motion to adopt the report was finally ruled out of order by President D. B. Oliver, for the reason that the rule is already covered by the rules of the board.

The following teachers were elected: Second ward, Ella Price, in place of Annie McCune, resigned; Annie E. M. McGraw, in place of Alice Bartley, resigned. Sixth ward, Anna Woodring, additional teacher; Jane P. Hipsley, in place of Cora Duncan, resigned. Tenth ward, Florence E. Kraus, in place of Bessie Weber, resigned. Eleventh ward, Mary E. Wigton, in place of Alice Richardson, resigned; Annie E. Evans, additional teacher; Florence E. Jarrett, intermediate grade teacher.

Superintendent John Morrow reported that all the schools in the city opened yesterday with a good attendance and that all but one of the pupils in the truant school reported for work. He also reported that the Pittsburgh exposition has set aside September 16, 17, 18 and 20 and October 3, as the days for Allegheny school children to be admitted free. Superintendent Morrow was instructed to arrange for the attendance of the children on these dates.

WANT RIVER IMPROVED.

Beaver Valley Towns Arrange for a Monster Mass Meeting in Interest of the Ohio.

ROCHESTER, PA., Sept. 2.—(Special.)—At a meeting here tonight by the business men and borough officials of towns in the Beaver valley arrangements were completed for a mass meeting to be held at Beaver Valley park next Tuesday for the purpose of securing improvements to the Ohio river.

Among those scheduled to address the meeting are John S. Dravo of Beaver, the Hon. W. S. Shallenberger, second assistant postmaster general; the Hon. J. B. Showalter and W. H. S. Thompson of Pittsburgh.

BOARD OF TRADE NIGHT AT FAIR

BUSINESS MEN OF MANY TOWNS AT HOMEWOOD'S CARNIVAL.

Flushed With the Success of the Start of the Mardi Gras the Management Has Under Advisement Its Continuation Another Week.

When the delegation of business men, representing the East End board of trade reached the grounds of the Homewood Mardi Gras carnival and street fair last night, Manager John A. Harbaugh shouted to the gatekeepers to close the gates until the managers would have time to show the secrets of success of the great fair.

Last night was Board of Trade night, and the attendance was larger than on opening night. A conservative estimate of the crowd was 6,000. The rush began before 8 o'clock and people streamed in and out the gates of the fair until midnight.

The delegation from the East End board of trade was the first to arrive. Then came the members of the Pittsburgh chamber of commerce, who were appointed to attend the fair. The Oakland board of trade was next, and then came the members from the Hill Hop board of trade. The towns of Braddock, McKeesport, Homestead and McKees Rocks all sent special representatives from their boards of trade.

The illumination at the carnival last night was much better than on the opening night, and incandescent lights will be added from night to night until the enclosed grounds will be well lighted. The booths have all been taken and many additional ones will be put up during the next few days, so they can be used for the closing days of the great event.

The Homewood board of trade has certainly made a tenstrike in arranging and holding the carnival. The show is popular with all classes.

East End people are taking hold of the show. A record breaking carnival is expected tonight. There is talk among the managers of the carnival that if the attendance keeps up it may be continued another week.

Elegance in Walking Suits.

The handsome new shapes and ideas this season have created an unprecedented demand for these sensible dresses.

Their popularity is no longer a theory but a delightful reality, largely due to the fact that ingenuity has perfected the walking shapes so they can be used equally well for the dress suit on many occasions.

The new walking shapes escape the ground cleverly, and the leading designers have imparted to them all the grace and beauty of the long skirt, at the same time retaining, or better still, enhancing, the practicability of the short skirt.

The Jackets are Blouse-Norfolk, with or without the belt, finished with the distinctively new slot seam, "Defender," and the severe fly front.

Prices are from $12.50 to $45, but the $20 to $30 grades are especially attractive.

All the new fabrics that Paris says are right.

Ladies' Separate Skirts.

The new shapes are works of art, as much so as any design that is fully studied out. They will cling more closely to the figure, but with more flare at the bottom. The walking shapes in just escaping the ground are more graceful in outline and hang—a very choice showing of new modes at $10.

New Walking Skirts, kilt styles, in blacks, blues and mixtures, $5 and $7.50.

New Fall Shirtwaists.

Those we are showing are correct. That is why we are a bit late, and there is a smartness about these that has not before been seen.

It is in the tailoring principally, and again the materials are different; heavier and molded on the decided lines of a tailored coat.

Quite a few are in, anticipating your kind words. The pleating, strapping and stitching, and the large novel buttons, all show effects at once original and charming.

Vestings, Brilliantines, Etamines, Granites, Velvets and Basket-Weave Cloths, all distinctly new.

Prices $1.25 to $7.50

New Autumn Skirting Cloths.

Quite a lot of new cloths for the unlined skirts—cloths with that nattiness women like so well. Among them

Six new Fall shades in Pebble Cheviot, and these cheviots are already sponged and shrunk, ready for the dressmaker. A splendid width, 56 inches. A modest price, $1.25 a yard.

Six new shades in Melton Cravenette, as the name implies, it is rain proof. 56 inches wide. $1.50 a yard.

Four desirable shades in Scotch Mixed Cravenette, a highly desirable cloth for the separate skirt, especially the walking skirt. It, too, is rain proof. 56 inches wide—$1.50 a yard.

Those 78c a yard Tweeds and Cheviots, together with other colored dress materials, and black also, are being cut freely, in fact, rapidly. They are goods that were intended to be sold for $1, $1.10 and $1.25 a yard, nice fall weights. We got them, no matter how, so that we can sell them for 78c.

Girls' New School Coats.

Beginning at $6.50 and running along easily to $35, 14-16 year sizes.

That is a fine range of prices, we think. The young miss who cares only for an inexpensive but good coat, meets with it here; the miss who will have something elegant has her choice.

Such styles as Norfolk, half-fitting and box, with all the new effects in bishop and plain sleeves.

Such good coat cloths as kersey, cheviot and covert.

New Underwear for Women.

Knit undergarments just the right weight for this season, neither too heavy nor too light.

Special lot of women's Lisle Vests, extra sizes, 25c, reduced from 35c.

Special lot of Fall weight Vests and Drawers at 50c a garment.

Swiss ribbed Corset Covers with long sleeves, 65c each, easily worth 75c.

CHAIRMAN EVANS DISCUSSES THE GRIMES PARTY

He Thinks William Flinn Has Become a Ballot Reformer Late in Life.

WHAT GUTHRIE MAY DO

Old Organization Candidates Hold a Conference and Decide That They Will Win This Fall—Beaver May Agree to Nomination of Acheson.

Dr. Cadwallader Evans, county chairman of the Citizens party, is of the opinion that ex-Senator William Flinn is beginning at a rather late day to reform the ballot by means of the Grimes Water Company party. The doctor was at the Citizens headquarters yesterday and consented to talk about the attempt of the old organization to use this new political body to help it in the fall fight.

Chairman Evans also makes an interesting statement about George W. Guthrie and his possible attitude toward the Grimes party. While he thinks Guthrie cannot afford to refuse an offer of votes he believes that he will issue a statement in which he will declare that he has no sympathy with the machine annex and that he regards its ballot reform pretensions as bogus. Chairman Evans had this to say:

"There is no doubt in the mind of any well-informed individual that the people of Pennsylvania need ballot reform. For my part I am not merely convinced that we need it, but that we shall get it in due course of time. But it will not come from the hands of the people who for a generation succeeded in strangling every effort of the people of this community for an improvement of the methods which prevailed at their elections.

Flinn Not Always a Reformer.

"I see that Senator Flinn has been delivering himself of some remarks in connection with the organizing of a new political party, about the need of reform in the primary elections. It is a pity that Senator Flinn did not see the need of reform at the primaries when he was possessed of some power to influence them. Flinn once reformed the primaries for the Republicans of this community and instead of making them better he made them infinitely and infamously worse.

"This is not a rash or ill-considered statement. It is a fact easily substantiated and one with which everyone familiar with the politics of this community for a dozen or 15 years is well acquainted. Without Flinn and his reform of the primaries, the Republicans of this city might now have a primary system which would enable them to nominate the candidates of their party instead of being obliged to submit to their being nominated by a boss.

"Until Flinn got up his 'Philadelphia system' and saddled it upon the Republicans of Pittsburgh the primaries were reasonably decent. The bosses had taken charge of the machinery of the party, but still it was possible for a man of courage and energy to win a nomination if the Republican voters wanted to nominate him. When the perfection of the Philadelphia system was reached the Republican voters could not nominate anything. The boss was the whole thing, and he continued to be the whole thing for so long a time that those who served under him became convinced that he and they were invincible. I wonder what kind of primaries Flinn would give us, anyhow, if he were permitted to reform them until he got them completely to his liking.

"The Ballot Reform party was born of despair. The machine took on their destruction approaching, and with the desperation of drowning men they are grasping at a straw. I fail to see how this party can help or harm anybody very much. Its main purpose is to bring Democratic votes to the ring candidates. In this I believe it will fall utterly, as the Democrats, from all that I can hear, are well satisfied with the fusion ticket. How much a help it will be to the Democratic state ticket is something more of a problem, but I do not think that it will be very great.

What Guthrie May Do.

"I have heard it suggested that George W. Guthrie may refuse to allow his name to go upon it, but I do not think he could afford to do this. A candidate for office on whatever ticket would stultify himself by refusing to accept any votes which might be offered him. For the same reason that Judge Pennypacker could not refuse the nomination of the Citizens party Mr. Guthrie could not refuse the nomination of the 'Ballot Reform' party. Still, I should not be surprised to see him come out in a declaration that he has no sympathy with the party and regards its ballot reform pretensions as bogus."

Dr. Evans will return this evening to his summer home in Allenhurst, N. J., to remain until the first of October. In his opinion the Citizens should confine themselves to strengthening the organization during the balance of this month. It is his idea to devote October to mass meetings. There are some of the leaders who believe that the spellbinders should go out at once. This will be taken up at a meeting of the speakers' committee Friday. The executive committee will hold an important meeting tomorrow.

Organization Candidates Meet.

There was a meeting yesterday of the candidates on the organization ticket. The absentees were Judge E. H. Stowe, Recorder George M. von Bonnhorst, Col. Henry Hall and Representative John H. Henderson. Von Bonnhorst is ill, and the other candidates were prevented from attending.

The conference was held at Republican headquarters and lasted for two hours. City Chairman J. O. Brown met with the candidates. The gathering resolved itself into an experience meeting. Each man was made to tell just what he was doing and how he was doing it. The situation in every part of the county was discussed. After the meeting the candidates all professed to be well pleased.

Arch Mackrell, candidate for sheriff, was authorized to tell what happened. This is what he said: "We all agreed that there was no trouble in the country districts and but little in the cities. We intend to elect the ticket with the old-time majority, and cannot see that we will have much of a fight. The campaign will be conducted along Republican lines. There are no other issues. The Citizens have no real issues."

Reuben Edwards has appointed John Bradley of the Twenty-sixth ward, a son of Detective William Bradley, chief clerk in his office.

The Allegheny county members of the Republican state committee, who are not now in the east, went to Philadelphia last night to attend the meeting today. A protest against Pennypacker accepting the Citizens indorsement will be presented.

Beaver May Get in Line.

An attempt will shortly be made to have the Republican county committee of Beaver certify to the nomination of E. F. Acheson of Washington for congressman. The Beaver organization has never recognized the popular vote method of nominating. Acheson announced in the three counties of the district, carrying Washington and Lawrence. James H. Cunningham was a candidate in Beaver and polled a majority of the votes. The Washington and Lawrence organizations appointed members of the district returning board, but Beaver refused to send a representative. The two counties certified Acheson's nomination.

Cunningham has held that Acheson is not entitled to the certificate of nomination. In order to make certain that there is no flaw in the nomination a resolution indorsing the action of the district returning board is wanted from the Beaver county committees. Cunningham's friends are in control of this body and have so far been unwilling to call a meeting for this purpose. It is said now that such action will likely be taken before long, it being believed that Cunningham will not attempt to be an independent candidate, as it would endanger the Beaver county ticket. The majority of the candidates are friends of Cunningham. In case Beaver does not agree to the nomination, Acheson will take out nomination papers to be on the safe side.

THREE M'KEESPORT BOYS ARE MISSING

Parents Worried Over Finding of Three Suits of Boys Clothes On River Bank.

The story printed in Tuesday morning's papers, dated Monessen, telling of the finding of three suits of boys' clothing on the river bank, has given rise to grave fears in McKeesport. Three boys have been missing from that place since Sunday last and from all that can be learned they have not since been heard from.

The boys are Porter Brady, 16 years old, son of Mr. and Mrs. Lincoln Brady of Walnut street; William Ward, 17 years old, son of William Ward of Tube Works alley, and Charles Hadley, 15 years old, of the latter boy but little can be learned.

On reading the report in the paper several companions of the youths remembered their friends saying that they were going to Monessen and that they left on Sunday night. The parents of the boys have been worried over their disappearance and have not received any word regarding their whereabouts since they left home. They were trying to get further information regarding the clothing found last night and have communicated with the Monessen authorities. The river, at the point where the clothes were found, will probably be dragged today.

TOLD A FAIRY TALE.

Fourteen-Year-Old Girl Waited Not for Investigation.

The police and the officers of the Humane society are searching for Annie O'Brien, a 14-year-old girl, who made her escape from the Curtis home on Fulton street Monday night.

The girl was picked up on a Monongahela car near Homestead late Sunday night by Miss Mary Wiesheier of No. 341 Princeton place, East End, to whom she told a sad tale of cruelty and abuse by her step-father, who had turned her out of doors. She was turned over to the Humane society on Monday morning.

To Inspector James M. Kidney she said her step-father was James Kennedy of No. 164 Eleventh avenue, Homestead, and that he had abused her in a terrible manner. She was sent to the Curtis home and Inspector Kidney went to look up the step-father. He found that there is no such number as the girl had told him on Eleventh avenue, and no James Kennedy could be found. When the girl learned that her story was being investigated she escaped from the home Monday evening.

ANOTHER MINING COMPANY.

Venture Made by Pittsburghers in Western Mining Property.

The Pittsburgh & Utah Mining Company is a corporation recently formed in this city. W. B. McSherry is president and J. H. Beals secretary-treasurer. The company has a clear title to 280 acres in Tooele county, the Ophir and Rush mining district, and developments are said to have progressed to a stage where the production of ore in paying quantities is a certainty within the next four weeks.

The company in its search is after gold, silver, copper or lead. President McSherry, who is said to be a thoroughly competent mining engineer, is also superintendent of the mine. The capitalization of the company is $150,000.

COSTLY IDEAS OF RECORDER AND DIRECTOR

City Funds Amounting to Over $15,000 Sunk in Useless Apparatus.

REFUSES TO DISCUSS IT

Despite the Fact That Aerial Truck and Electric Carriage Have Never Been of Service, Director Leslie Will Not Talk of Costly Failures.

The pet ideas of Recorder Brown and Director Leslie in regard to fire-fighting apparatus have proven costly and useless experiments. The city's money to the amount of $15,000 is tied up in two pieces of complicated apparatus that are of absolutely no service.

The much-heralded pneumatic aerial truck was the first method used by the administration to demonstrate how much money could be expended in a piece of machinery that would not work. It broke down before the crew assigned to it had been able to become acquainted with its intricacies, has never been in service and never will be. It cost $10,000.

It was learned yesterday that the electric hose carriage costing $5,000 was too large and cumbersome for operation. The city cannot get motors of sufficient strength to operate it.

When Director Leslie took hold of office he was determined to have the most modern apparatus that could be procured in the United States. This was not enough, however, and he sent to Europe and secured the rights to have a pneumatic ladder made. This machine, it was said, proved to be the most satisfactory in Germany and France, and was heralded here as a wonder.

The machine was made in Chicago, and from the time of its arrival in Pittsburgh it has proved to be useless. After several tests the machine was badly damaged in one of the drills. The compressed air cylinders broke and so frightened the firemen that they refused to work on it any longer. These cylinders were repaired, but still it proved impractical for service, and now it has been determined to abandon it entirely. At the time of its purchase old officials of the fire bureau said the machine would prove useless on account of its delicate construction.

The electric hose carriage was manufactured at the suggestion of Director Leslie. It was made in Chicago. The motor was to be made in England. It was a special patent motor made exclusively for these electric hose carriages. When the city authorities had ordered the motor they learned that the rights for this patent had been sold in England and they were unable to secure one of the special pattern motors.

Director Leslie decided to have the hose carriage sent to this city and secure motors here for it. An electric motor was ordered from the Westinghouse company, but it proved too small. Another of greater power was ordered, and when tried was unsuccessful. This machine and the electric motors cost the city $5,000, and the machine has now been abandoned and stored away.

NEW YORK WINS HILTON TROPHY

PENNSYLVANIA BREAKS RECORD FOR INDIVIDUAL SCORES.

Hal. H. Leizear Makes Total of 101 Out of Possible 105—Dr. Hudson of New Jersey Almost Equals Him—Some Good Scores Made.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

RIFLE RANGE, SEAGIRT, N. J., Sept. 2.—The record in the Hilton trophy match, a total of 1,008 out of a possible 1,200, established a year ago by the District of Columbia, was surpassed by New York 30 points today, the team representing the Empire State rolling up a total of 1,137. New Jersey finished in second place with 1,124, while the District of Columbia was third with an even 1,100.

As the afternoon wore on the clouds that had been in evidence all day began to break away and the attendance of spectators increased noticeably. The shooting was watched with the greatest interest. When the last shots had been fired and it became known that New York had captured the famous and much-coveted trophy a mighty cheer for the victorious team was given. The New Yorkers were photographed in a group before proceeding to their tents.

Both Hal. H. Leizear of Pennsylvania and Dr. Hudson of New Jersey broke the record for individual scores. Each attained a total of 101 out of a possible 105. Leizear is entitled to the highest honor, he having the best score at the longest ranges.

Gen. Heywood, commanding the United States marine corps, was prominent among the onlookers while the match was in progress. The Hilton trophy was won by New Yorkers in the years 1878, 1879, 1881 and 1891, its highest total until today being 1,065 points. Every man shooting in the match fires seven shots each at 200, 500 and 600 yards. The trophy is held for one year by the state winning it, while a medal is presented to the team members.

DEATH RATE IS HIGH.

Last Week's Mortality Was 27 Per 1,000. Other Statistics.

The death rate in Pittsburgh ran up to 27 per 1,000 last week, notwithstanding the increase in the estimated population to 346,000. There were 180 deaths, as against 120 for the same week last year, an increase of 33 per cent. The principal causes were: diarrhoea 23, typhoid fever 16, scarlet fever 4, diphtheria 8, pneumonia 5, appendicitis 3, violence 18.

There were 42 deaths among children under 1 year of age.

During the week there were reported 116 cases of typhoid fever, 21 of scarlet fever, 29 of diphtheria and 12 of smallpox. Eighteen cases of typhoid fever, 3 of scarlet fever and 6 of diphtheria were reported to the Pittsburgh bureau of health yesterday.

HAY FEVER

Dr. S. A. Brown, head of the medical department of Bellevue Clinic, New York, says: "There has been in the last few days an alarming increase of hay fever. Many cases are brought here by persons returning from vacations where hay is being harvested. Then the odors of different kinds of fruit are likely to induce hay fever. One of my acquaintances contracts the disease every time he gets a whiff of a pineapple. Unfortunately, people who cannot get away to a locality free from hay fever, must bear the disease until it runs its course."

But no one need suffer from hay fever if he will use Pretzinger's Catarrh Balm. Dr. A. Wilson of Ada, Ohio, says: "This Balm does its work for hay fever well."

Hon. O. R. Smith, Mayor of Winchester, O., was cured in four days, after suffering 46 years. This was five years ago and he has had no trace of hay fever since, and "now feels better than for fifty years."

Gen. Cyrus Bussey, late Assistant Secretary of the Interior, Washington, D. C., writes that "The use of the Balm relieved hay fever in one day."

Pretzinger's Catarrh Balm relieves immediately and cures positively. Convincing proof, with sample, for a two-cent stamp, or a full-sized jar for 50 cents.—Druggists sell it. Address

THIS ECZEMA SUFFERER WAS ENTIRELY CURED IN FOUR WEEKS BY ZEMA-CURA.

"Dr. M. M. HARRIS:—I wish to say that I had been troubled with eczema in my feet for three years, having had three doctors to treat me, but was never cured until I commenced using 'Zema-Cura.' After using it for three or four weeks I was very much surprised to find my feet entirely cured. I had almost given up hope of being cured, having spent hundreds of dollars without success. At the time I began Zema-Cura I had not had a shoe on for three months. It has now been at least ten months, and no sign of its returning. I can not say too much in behalf of this medicine. You are at liberty to refer anyone at any time to me. I will take pleasure in answering any inquiries."—R. C. WHAYNE, Louisville, Ky.

DEVELOPMENTS IN FLANNIGAN ESTATE FIGHT

Another Set of Irish Claimants Has Entered Into Contest.

ATTORNEY SMITH BACK

Pictures of English Woman, Thought to Be Kittie Flannigan's Mother, Are Said by Relatives to Be of Some One Else.

With the return of Attorney Edwin Z. Smith from Ireland, where he went to take testimony relating to the family of Michael Flannigan, the wealthy Lawrenceville blacksmith who died leaving his will on a piece of note paper for a $10,000 estate and no kin known at the time, comes the announcement from Attorney Herman L. Grote of this city that Attorney William H. O'Brien of Philadelphia represents Irish claimants to the estate and that they will contest the rights of Kittie Flannigan, said to be the niece of the decedent.

Attorney Smith returned to his office yesterday, but positively refused to make any statements with reference to his work as commissioner, until he had first filed his testimony with the orphans' court judges. He went to Ireland to take testimony with reference to the family of Michael Flannigan's mother, who was the first wife of Patrick Flannigan. This important testimony was overlooked by the parties to the contest when Mr. Smith made his first trip to England and Ireland relative to the estate.

More Claimants Appear.

Attorney Grote received a letter from Attorney P. J. Daley of Philadelphia asking him to look up the records in the case. The letter reads:

"Herman L. Grote.

"My dear sir: Mr. O'Brien is interested in the estate of Michael Flannigan, representing some of the heirs abroad. There seems to be some dispute about the county in Ireland from which the deceased came. Will you kindly look over the records of the case and let Mr. O'Brien know what it discloses as to the county? The matter is in your orphans' court. The deceased died about four years ago.

P. J. DALEY."

Attorney Grote replied that there were three sets of claimants, one claiming Michael Flannigan originally came from Clonard, Kildare county, Ireland, another Dublin, and a third Hull, Eng. Still others said he came from some of the western states.

Came From Ireland.

It has been shown positively that Michael Flannigan came from Clonard, Kildare county, Ireland; that his mother was the first wife of Patrick Flannigan of that place, and that he had a brother, John, whom some allege died from consumption when a young man, and others say married and came to this country with his wife, who had relatives in Pittsburgh, leaving four children, of whom Kittie Flannigan is the only living heir.

It has never been shown what became of one brother of Michael Flannigan, although some testimony of a vague character is on record. Mary Keeley was his mother's maiden name, and it is her family that now interests the present claimants to the $60,000.

When Mr. Smith returned from his first trip to Hull he brought with him testimony contradicting Kitty Flannigan's claims, which practically had been recognized by the courts, as next of kin. He found in the poorhouse in Hull Mary Ann Flannigan, who was alleged to be Kitty Flannigan's mother.

The English Woman's Tale.

She testified on her death bed that John Flannigan was her husband; that they went to Pittsburgh in the later 70's; that he was worthless and she had to return to England; that she had relatives in Pittsburgh and that Kitty Flannigan was one of two daughters, left here when she returned, taking with her two sons, one now in South Africa and the other in Canada. She denied that her husband, John Flannigan, whom she left in Pittsburgh, was the brother of Michael Flannigan, alleging that he came from Rosscommon, and not Kildare county, Ireland. This was a hard blow to Kitty's claims.

Attorney Smith, when on his first visit, took a snap-shot of the woman claiming to be Kitty's mother. He secured a good likeness. Kitty and her two aunts visited Mr. Smith, secured a copy of the picture, and now a sensation is to be sprung as all three deny that the woman is Kitty's mother.

More Complications.

The sisters of Kitty Flannigan's mother say they ought to know their own sister, and that this woman is not their sister, but must have married another John Flannigan. This will all be offered when the case comes up again.

In denying the woman is her mother Kitty also denies that she has a brother in South Africa or another brother in Canada. They all deny knowledge of Kitty's mother, but believe she is dead.

When the orphans' court decides the next of kin, a question which is made more complicated with the introduction of the new Irish claimants, the person who gets the decision will then have to contest the will, written in a memorandum book, making E. A. McCabe the sole heir to the estate. Attorneys Marron and McGirr, who represent Mr. McCabe, are quietly awaiting the final chapter, where they take a hand.

Wants to Know Value.

A bill of complaint was filed yesterday against the Union Trust Company by Robert S. Robb, administrator of Theodore R. Hostetter, deceased. In the bill Mr. Robb says that the deceased placed with the trust company bonds which he believes to be worth, with the interest, $700,000. They were to be held in trust until 1905. The company refuses to make known the amount and the petitioner asks that it be made to do so, to enable him to make a correct appraisement of the estate.

ASKS RESTRAINING ORDER.

W. J. Sampson Files Suit Alleging Rivals in Coal Business Took Land Optioned by Him.

In the United States circuit court yesterday a bill in equity was filed by William J. Sampson against the Pittsburgh Coal Company, the Pennsylvania Mining Company and George B. Champ. Affidavits of defense were filed and a restraining order made in the case by Judge Marcus W. Acheson.

The suit is an action to recove possession of a strip of land situated in Charlers township, Washington county, which the plaintiff alleges was optioned from George B. Champ, one of the defendants, who owns the farm of which the disputed property is a part. The plaintiff alleges that the option given by Champ to him gave him the right to purchase the property any time before January 1, 1902. He claims that he notified Champ of his willingness to purchase the property under the terms of the option and that this proposition was thoroughly understood by Champ. Sampson avers that he commenced work on the strip of land but that the deed had never been delivered.

Later it is claimed Champ sold his farm, including the land purchased by Sampson, to the Pennsylvania Mining Company and the latter refused to recognize the plaintiff's claims. The company knew of the plaintiff's option, Sampson avers, but refused to allow him a deed of the property.

The plaintiff further says that he took possession of the land on August 28, 1902, and surveyed and laid out a railroad track on it. He says that at the close of that day the work was stopped and tools left on the ground, and that the next morning the Pennsylvania Mining Company sent a large force of men to the property, threw the tools off the same and took posadssion. Later, he says, the company went before Justice of the Peace Maxwell Potts of Canonsburg and swore out informations against the plaintiff and numerous of his employes, using fictitious names, and charging them with malicious and criminal trespass. He says that one of his men, David J. Jacob, was arrested and held on bail to answer the charge.

The plaintiff says that he and the defendants are competitors in the mining and marketing of coal, that he owns other mining property northwest of the Champ farm, which he intends to operate. His purpose for purchasing the land through the Champ farm was to connect the mines with the Western Washington railway, and he claims the defendants' sole purpose was to hinder the work.

The plaintiff asks that the defeadants be compelled to deliver a deed for the disputed property to him on the terms of the option purchase; that they be restrained from doing further acts in interfering with his possession of the land, and that he be given damages that the delay in the work has caused. Judge Acheson granted the restraining order.

The affidavits of defense were filed by E. J. Taylor, chief engineer of the Pennsylvania Mining Company; J. B. L. Hamberger, secretary and treasurer of the same company, and Mark R. Craig, assistant counsel for the company, and were to the effect that they had witnessed certain steps in the purchase of the Champ farm and the delivery of the deed.

EDGAR FILES EXCEPTIONS.

Says Master Erred in Not Finding Star Witness Was Bribed.

Attorneys Smith and Kearns for George S. Edgar yesterday filed exceptions to the report of the master, W. A. Blakeley, in recommending a decree in the divorce suit brought by Edgar's wife. Edgar says he was not legally notified of the suit, that the master erred in not finding the libellant's testimony unworthy of belief and that he erred in not finding the libellant bribed the "star witness," Annie Shelton.

It is charged the master erred in not finding the libellant attempted to influence and corrupt other witnesses and in refusing the respondent's offer to prove that the libellant sent to the respondent vulgar anonymous letters, and that the master found favorable to the libellant things and conditions which she denies.

The commissioner in the divorce suit of Elizabeth J. Wolfe against John H. Wolfe filed his report. The libellant charges that her husband drank, gambled and remained away from home.

The report of the commissioner in the divorce case of C. F. Freemantle, a musician, against Olive A. C. Freemantle was filed. Desertion is charged.

A like report was filed in the case of Phoebe Hamilton against Henry Hamilton. They were married May 21, 1888, and desertion is alleged in April, 1900.

Today's Trial Lists.

Criminal court—Commonwealth vs. William Frank, John Wilson, Charles Huadley, Joseph Curran (3), Edward Humphreys, Carl Haust, Charles McCloskey, James Burns, Antonia Capinota, Parks Cutright, Frank Zake, John Fitzpatrick, J. M. Gray, William Myler.

Fined for Contempt of Court.

J. C. McIntyre of McKeesport, was fined $50 by Judge McClung for contempt of court. Some time ago McIntyre was restrained from doing blasting at the Tube City Brick Company plant, on complaint of J. H. Irwin. On July 21 McIntyre violated the decree. Judge McClung said that if the offense was repeated some one would be given a chance to visit the jail.

SAYS FRAUD IS USED.

Officers of the Twyford Vehicle Co. Accused of Attempting to Sacrifice the Concern.

John H. Rising sued the Twyford Vehicle Company for $5,000 claimed to have been advanced to carry on the work of the company, of which he is a director. He also asks that a preliminary injunction be issued restraining R. E. Twyford and F. H. Trembly, president and treasurer of the defendant company, from further management and control of the company's business, and that a receiver be appointed to take possession of the property.

The plaintiff avers that the president refuses to make any statement of the company's standing, and alleges he has allowed judgments to be obtained against the company without the consent of the directors. He also says that the president has allowed the tools to be sold to satisfy the judgments.

It is further alleged that the president and treasurer intend to run the company's business down, involve it in a state of insolvency so they can secure it at a sacrifice for themselves and thus defraud all others interested.

In the No. 8 circuit court the Coleman Hardware Company of Chicago, Ill., entered suit against the Logan-Gregg Hardware Company of Pittsburgh for the alleged infringement of a patent for the manufacture of spring hinges. An injunction restraining the defendants from further infringement and damages for hinges manufactured by them are asked by the plaintiff company.

BANK SUES ON A NOTE.

Court Asked to Decree Stock of the McKinley Coal Company Its Assets.

The First National bank of Pittsburgh yesterday in common pleas court No. 1 brought suit against the McKinley Coal Company and the individual stockholders. It is asked that an accounting be ordered, that the stock held by the stockholders be decreed the assets of the company, and that an injunction be granted preventing the disposal of the stock until the final hearing. This injunction was granted, and September 6 was fixed as the time for final hearing.

It is stated that in 1898 the defendant was indebted to the plaintiff in the sum of $9,000, and later judgment was obtained against the coal company for $11,650 21. It is stated the company has no assets, it having sold all of its property to the Consolidated Coal & Coke Company on October 1, 1899. Since then, it is alleged, the McKinley Coal Company has ceased doing business, although it has not been legally dissolved.

It is alleged the stockholders of the McKinley Coal Company received for their interest $100,000 worth of first mortgage bonds of Monongahela River Consolidated Coal & Coke Company, $100,000 worth of the preferred stock and $100,000 worth of the common stock, now valued at $170,000. It is said that no provision was made for the payment of the plaintiff's claim, the stockholders having divided the stock among themselves.

LEGAL BRIEFS.

The trial list in common pleas court No. 1 will be taken up next Saturday morning.

The administrator of the estate of Walter A. Nevin charges himself with $10,616 25 and claims credit for $10,616 25.

A statement was filed in the suit of Anne Rice against John Williams. The plaintiff wants $5,000 for alleged false arrest.

Joseph Mahlbauer of Lower St. Clair township gave a $10,000 estate to his wife. Attorney Hugh Ferguson is the executor.

An inventory and appraisement of the estate of Max Hartman, Sr., shows a valuation of $5,415 50, and of the estate of Jacob Deily a valuation of $13,440 87.

The will of Nicholas Diel of Allegheny was filed. Freund and Broderick, counsel for the testator, are left $150 each and the balance of a $1,500 estate goes to the widow.

A petition for alimony was filed in the divorce case of Hubert Hafner against Sophia C. Franck. The latter declares her husband induced her to turn over all of her individual property to him.

Liens were filed against the passenger boat Pastime and the ferryboat Hope by John K. Corey and Charles Rodgers. Corey claims $22 25 for repair work done on the boat and Rodgers $25 65 for supplies furnished.

The following letters of administration were granted: To Mary Jane Pearce

LOCAL NEWS OF ALL PITTSBURGH

Wife's Complaint Caused Fine—Samuel Meyers, aged 76, against whom his 16-year-old wife made complaint of brutal treatment, was yesterday fined $5 by Magistrate McMasters.

Was Shot During Fight—John Brown, aged 27, of Arnold, Fayette county, arrived at the Mercy hospital yesterday morning to have a bullet removed from his right thigh. He says Jasper Martin shot him in a fight at Arnold.

Brinker Waived a Hearing—H. H. Brinker, formerly teller of the German National bank, who was charged with embezzling $20,000 from that institution, waived a hearing before Alderman McMasters yesterday and was recommitted to jail for court.

Chicago Yarn Denied—William Craig of Neptune street, West End, a member of the firm of Brennan & Craig, has returned home and his wife yesterday denied the report from Chicago that he had been spending money at the rate of $2,000 a day at a resort in that city.

Myrtle Was Affectionate—Myrtle Miller, colored, of No. 1100 Bedford avenue, was held for court in $500 bail yesterday by Magistrate McGarey on complaint of P. F. Fogle of Mt. Pleasant. Fogle asserted that Myrtle, as he was leaving her home, threw her arms about him and separated him from $480.

Highwayman in Homestead—Antonio Angelo, an Italian miner from Moon Run, went to Homestead, yesterday to visit friends and while passing down McClure street, was held up and robbed of $65 by two negroes. After securing the Italian's money the men threw him down on the street and ran away.

An Automobile Explosion—E. E. Edsall of Rodgers avenue, Bellevue, started for the Brighton Country club, yesterday in his new $6,000 racing automobile. While descending the grade at Brigton road there was an explosion that threw both Edsall and the chauffeur out on the road, inflicting serious injuries and wrecking the automobile.

Many Would Be Citizens—Judge Buffington's office in the Federal building was thronged with foreigners yesterday who wished to become citizens. The majority of them were subjects of the "war lord." As Judge Buffington did not come to his office the would-be citizens were disappointed, but they will be present when the judge arrives this morning.

August's Record Better—The coroner's report for August was completed yesterday. It shows 430 violent deaths in Allegheny county. There were 9 murders, 13 suicides, 18 killed in mills, 35 killed on railroads, 10 killed by street cars and 2 died of taking poison by mistake. In August, 1901, there were 239 deaths reported to the coroner's office.

Foul Play Is Feared—Edward Schmurtz of Philadelphia has written to the police of this city to aid him in locating his son, Harry M. Schmurtz, who disappeared from his home, No. 2555 Chadwick street, Philadelphia, on August 2. The young fellow is a telegraph operator, and as he had $60 with him when he disappeared his family fears foul play.

Good McKeesport Sale—F. S. & W. G. Gleason of McKeesport yesterday sold to William Hill of Carnegie the old J. M. Hartman residence, in Fifth avenue, McKeesport, for $18,000. The property fronts 60 feet on the principal portion of Fifth avenue and runs back 165 feet. Mr. Hill will erect a business house on the lot.

Jumped from Moving Car—Mrs. Carrie Finch, aged 28, of No. 26 Flowers avenue, jumped off car No. 613 of the West End division, Pittsburgh Railways company, as it was going along Main street, West End, yesterday morning and was probably fatally injured. She was taken to the home of Harry Jones, No. 36 Warden street.

After Delinquent Tax Payers—Justice John J. Walker of Wilkinsburg has issued warrants for the arrest of more than 100 people who are delinquents in the payment of taxes. Walker has been very lenient, and has had occasion to put only one man in jail since he has been tax collector, but he is under bond for the collection of these taxes and proposes to collect them.

Strikers Will Get $1,500—Secretary John Fernan of the Labor Day demonstration yesterday estimated that the profits from the souvenir book program, sale of badges and other sources of revenue would be about $1,500. As soon as an audit is made the profit will be turned over to Secretary-Treasurer W. B. Wilson of the United Mine Workers for the anthracite miners' strike fund.

Boys' Home Gets a Piano—The Boys' Industrial home, at Oakdale, has recently received a very fine piano, a bequest from the late Mrs. E. N. Wildman of the East End. The home needs a new boiler to heat the building and a new green house. The expense will be about $500. Any one willing to help in this can remit to the treasurer, Charles F. Dean, Union National bank.

Carnahan Has Work Cut Out—City Solicitor Thomas D. Carnahan will at once get down to work on the questions which have been raised by City Controller Larkin during the absence of Mr. Carnahan from the city. The question of most interest to the city administration just now is whether the city has a right to borrow money to tide over until the next appropriation ordinance is made out.

Not Much Interest Shown—The Greater Pittsburgh committee of the chamber of commerce failed to meet yesterday afternoon for want of a quorum. The meeting was called to consider the bill prepared by Attorney William B. Rodgers for the creation of a Greater Pittsburgh. The bill will likely be presented to the chamber at its next meeting without having been acted on by the Greater Pittsburgh committee.

Lee Was Held for Court—Martin Lee, charged with attacking Mrs. Joseph Miller and her sister, Miss Freda White, in a Glassport hotel, had a hearing before Alderman W. D. Mansfield of the Fourth ward, McKeesport, last night. Both women had so far recovered as to be able to appear against Lee. The latter broke into the women's room and beat them in a terrible manner. He was held for court, under $800 bail.

Three Were Scalded—A cylinder head at the plant of the Iron City Brewing Company, at Liberty avenue and Thirty-third street, blew out yesterday morning. The following three men were badly burned and scalded by steam and hot water: John Buchel, engineer, No. 3832 Liberty avenue; James Hare, chief engineer, Thirty-ninth and Liberty; Paul Keating, No. 3435 Denny street. The first two men are at the West Penn hospital and Keating was sent to his home.

Sued for Criminal Libel—J. M. Durko, a Pole living on Windom street, South Side, was arrested yesterday and committed to jail by Alderman John Groetzinger on a charge of criminal libel made by S. Goldman, manager of the Jewish Pittsburgh Medical society of No. 406 Grant street. Goldman claims Durko sent a communication to the editor of the Slavok Amerike, a Polish newspaper published in New York, in which he said that the medical society was a swindle, and that they had beaten him out of $75.

Burgess' Veto Stands—Braddock council held a meeting yesterday, and decided not to take up the question of granting the Pittsburgh & Lake Erie Railroad Company rights of way over Eighth street, to lay two additional tracks. Burgess Brennan vetoed the proposition at the last meeting of council in August, and the veto will stand. The company has secured rights to lay additional tracks over every other street from the Rankin borough line to Eighth street, Braddock.

Only One Had Quorum—Meetings of the finance, public works and surveys committees of the Pittsburgh councils had been called for last night. The committee on surveys is the only one that had a quorum. The following ordinances were affirmatively recommended: Establishing the grade of Haverhill street, from Batavia street, 317 feet south; Reed street, from Center avenue to Soho street; Lillian street, from Beltzhoover avenue to Knox avenue; Wheeler street, from Frankstown avenue to Batavia street; Lyric street, from Lincoln avenue to Puckety road. Re-establishing the grade of Conemaugh street, from Singer street to Wheeler street. Changing the grade of Blackadore street, from Frankstown avenue to city line. Locating La Place street, from Center avenue to Soho street. Repealing the location of Miner street, from Webster avenue to Ridge avenue.

PILOT BOYD APPEALS.

Not Satisfied With Steamboat Inspectors' Decision in Elizabeth Case.

Pilot Irwin Boyd of the steamer Elizabeth, who was suspended for 30 days by the local steamboat inspectors, Capts. George H. Atkinson and Isaac B. Williams, has appealed from their decision to Maj. S. R. Crumbaugh, supervising inspector of steam vessels of the Pittsburgh and Cincinnati district. Pilot Boyd was on watch at the time of the collision with the L. C. Woodward, near Maldsville, on the Monongahela river.

Pilot Boyd avers that he was not allowed to hear the testimony given by the Woodward's crew until nearly all the witnesses had been heard by the inspectors. He avers that he should have been allowed to hear all of the testimony. The inspectors say that the door of the room in which the hearing was held was open and that Boyd had a right to appeal. A final decision is expected in a few days. The captain and pilot of the Woodward were suspended at the time Boyd's license was revoked.

News of the Rivers.

The towboat Elisa is doing pool work for the Rogers Sand Company.

The Ohio river is lower than it has been for a year. The stream is falling its entire length.

The pilots' excursion today on the Monongahela will be one of the biggest events of the season.

The T. N. Barnsdale came off the Parkersburg docks last week and is now receiving new boilers at Gallipolis.

Charles F. Foster of the Anchor line returned yesterday from the seashore. His family will be home today.

There is a big stage of water at St. Louis, there being nine and one-half on the marks. A high stage for this season of the year.

The Lorena came off the Parkersburg docks on Saturday, after undergoing repairs and the Rush took her place on the docks.

The Anchor line owners may build a fine sidewheel boat before next spring. If they do it will be one of the finest ever built for Monongahela river service.

There will be a meeting of harbor No. 25, Masonic order, today, Tuesday, at which time a clerk will be elected to fill the place made vacant by the resignation of Capt. Scott R. Dawson.

The towboat John C. Fisher which sank several days ago and was raised Monday was at the Thirteenth street landing yesterday making repairs. The boat is expected to be running today.

The towboat Sprague is supposed to have left St. Louis for New Orleans, stopping at Cairo to get some of her outfit. The shaft of the boat cost $15,000, almost the cost of some of the pool boats.

Theodore Poe went to Georgetown yesterday to hunt seal fish while he is spending his vacation. When the Ohio river packets are tied up there is nothing for him to do but to enjoy outdoor sports.

Henry Wardell, superintendent of the steel division at Howard's shipyards, is now supervising the construction of the double steel hulled steamer, Alex. M. Halliday, is the youngest man in the country at the head of such a plant.

The steamer Miles H. made her initial trip from Steubenville to Wheeling the other day. This unique little boat made excellent time and had all the business she could manage. The owners and builders, Capt. B. T. Hubbard and son, Charles, are being congratulated on the success of the craft.

Capt. William Kimbling says he has been the principal owner of the towboat Hunter No. 2 for eight years and that it has not been necessary to expend a dollar on her boilers for repairs. He says he never overtaxes the boilers with steam and does not rush the boat, just to get ahead of some other one. He says he believes that it is false economy to make a boat do too much work.

PREACHER'S CHILDREN

Same as Others.

The wife of a prominent divine tried the food cure with her little daughter. She says, "I feel sure that our experience with Grape-Nuts food would be useful to many mothers. Our little daughter, eight years old, was subject to bowel trouble, which we did not then understand and which the doctor's prescription failed to cure.

"We had been using different cereals for breakfast and finally becoming discouraged, I said, 'I will try an experiment. I will discard all other cereals and use only Grape-Nuts for breakfast.' The three children all like it better than anything else and are so fond of it that I hardly let them have all they want. In a short time I could see an improvement in the bowel trouble.

"We began using Grape-Nuts five months ago and now not only has the bowel trouble disappeared, but the child has grown so plump and well—in fact, was never so fleshy before—that all our friends noticed and remark about it. We think we have an ideal breakfast, which consists of whole wheat bread with butter, Postum Cereal Coffee and Grape-Nuts. This is all we care for and I think it would be hard to find many families so invariably healthy as is ours." Name given by the Postum Co., Battle Creek, Mich.

BANK DIRECTORS FIGHT A DEAL TO WREST CONTROL

James Kifer of Allegheny Offers $100 for Exchange National Bank Stock.

LAST PUBLIC SALE AT $95

In a Circular to Stockholders Officers Advise Them to Hold on to Their Shares—Directors a Unit Against Sale.

Directors of the Exchange National bank are fighting an effort to depose the present control and to deliver a majority interest in the bank to new owners. James Kifer of McKee place, Allegheny, has sent a circular letter to all the shareholders of the bank asking for a two months' option on their holdings at $100 a share. The offer presented an inviting feature, because the last open sale of the stock was at $95 a share. Its par value is $50.

As soon as the offer reached the officers and directors of the bank, who have the control, a meeting of the directors was held and it disapproved any sale. All of the 13 directors were at the meeting. It was reported that Kifer had been one of the promoters of a proposed new $2,000,000 national bank for Pittsburgh, which was said to be backed by the Standard Oil Company. Numbers of Pittsburghers subscribed for the stock of this venture and subsequently began proceedings in court on the ground that the representation that the Standard Oil Company interests would back the bank was untrue.

There Is Profit in Options.

Mark W. Watson, president of the Exchange National bank, which occupies a fine building of its own at No. 240 Fifth avenue, said, yesterday: "I have received one of the circulars of Kifer. I only know him by reputation. I suppose his purpose is to secure the options with the idea of selling them. It would be an easy matter to sell these options at a round profit if they were once secured. This man says in his circular that some of the stockholders have given him options, but I doubt that options on any material amount of shares have been given and I know of none. At any rate, the bank will continue the even tenor of its way under the present ownership."

President Watson yesterday sent out the following circular letter to the stockholders of the bank:

"A number of stockholders have informed the officers of the bank that they have received a communication signed James Kifer, soliciting an option for two months on the stock of this bank at $100 per share. The proposition is really too absurd to be taken seriously.

"The matter is given attention only because silence on the part of the bank might deceive some stockholder and lead him to option his shares at the ridiculous figure mentioned. The officers and board of directors know little, if anything, of Mr. Kifer, and nothing whatever of his scheme and have no lot or part in it.

To Continue as an Independent.

"The bank has an honorable history and has paid an enormous sum in dividends. It is now in a healthy and prosperous condition, and it is believed by the board of directors and officers that it will be better and safer for all interested if it be carried on in the future, as in the past, as an independent institution.

"It is deemed advisable, therefore, in the interest of the stockholders, to warn them against the approach of the promoter, no matter in what guise he may appear."

The Exchange National bank was organized in 1838 as the Exchange bank and in 1865 was reorganized as the Exchange National bank. The capital stock amounts to $1,200,000 and at the last annual report the surplus was shown as $470,000 and undivided profits at $260,296. The bank has been paying an annual dividend of 6 per cent and since the organization, up to the time of the last annual report, $4,355,000 had been disbursed in dividends.

The directors of the bank are Mark W. Watson, Frank S. Bissell, Calvin Wells, James W. Brown, John Moorhead, Jr.; Albert H. Childs, Edward B. Alsop, Andrew Long, Louis W. Dalzell, James W. Scully, John W. Speer, J. W. Marsh and F. T. F. Lovejoy.

PAYROLL TO BE INCREASED AGAIN

DIRECTOR LESLIE PLANS TO SWELL THE POLICE FORCE.

More Men Will Be Added to East End Squad—More Patrol and Fire Boxes Are Also to Be Installed.

While Controller Larkin and councils are endeavoring to stem the pace of extravagance set by past administrations, Director Leslie is planning to increase the expenditure in his department.

The director says that the Twenty-first, Twenty-second, Twenty-third and Thirty-eighth wards need more police and fire protection, new patrol and fire alarm boxes are to be placed there and the force of policemen is to be increased materially.

The downtown police squads are not to be drawn on for the necessary men, but instead the increase will come from absolutely new men. It is not known where the necessary money is to come from. The city is facing a certain deficit of over $1,000,000 now, and Recorder Brown is trying to find some legal means of tiding affairs over until next year.

Yesterday Director Leslie and Supt. Frank Orbin of the bureau of electricity, looked over plans for new patrol and fire boxes and approved them. Their construction will begin immediately.

The director says he will not increase the force in the Thirty-eighth ward. He has not made any statement concerning an increase in the fire-fighting force, but this is expected to come later. There has been complaint of insufficient police protection from the East End wards, and with the force in the state of demoralization that has been apparent during the past few months, thieves and burglars have had things pretty much their own way, to say nothing of gambling resorts and speakeasies, scores of which flourish in that section.

The places to be filled on the police force will be a potent aid to the machine in the coming campaigns. Every effort will be made to rid the force of men suspected of allegiance to the Citizens party, and in their places, as well as in the new jobs, will be put men on whom the machine can rely.

The Cold commonly described as "deep-seated," with pain and soreness in the breast, difficulty of breathing, and all that, yields quickly to Dr. D. Jayne's Expectorant.

Union Party Convention.

There is a prospect for a rather lively time at the Union party state convention in Philadelphia today. It does not promise to be an altogether harmonious body. Col. A. K. McClure's letter of resignation is a concise and vigorous statement of conditions as they exist. It presents logical and good reasons why the writer cannot subscribe to the propaganda of Chairman Riter, but will cast his vote and influence for Judge Pennypacker and the whole Republican state ticket. City Chairman Clement's letter is more to the point in indicating the revolt within the Union party against the dictation of State Chairman Riter and his followers, who contemplate making the organization a Democratic annex—if they can.

In the personnel of the delegation from Allegheny county there is an indication of what the party is locally. At least a portion of the delegates are unknown in politics and pretty nearly all are biddable hangers-on of the "organization." Their resolutions disclose the same source of inspiration as that of the Ballot Reform party, though they possess the merit of leaving nothing in doubt as to the attitude of this one delegation.

It may be added that the public interest in the gathering centers upon the contest within the party rather than upon the influence it may have upon the campaign. There is such an evident disagreement among the leaders, as well as in the rank and file, that the party cannot give its whole strength to anyone. It was nondescript in its inception and now seems about to dissolve into its constituent elements.

The Army's Day.

The army in defense of the Atlantic coast had its innings yesterday, not only retrieving much of its losses of the previous day, but inflicting upon "the enemy" damages so serious as to make it reasonably probable that no successful invasion of the coast can be made with the present attacking force. Several of the big ships have been destroyed by mines or sunk by the great guns of the forts, and Gen Barry is hopeful that it will not be necessary to call out the Connecticut National guard to repel the invasion. We are proud of the efficiency of the navy and of the alertness and resources of the naval officers, but it is also a source of satisfaction to learn that so vigorous a defense of the coast can be made against an enemy seeking to invade our shores.

The Monroe Doctrine.

Whether inspired thereto by the wrath of the jingo London Saturday Review or because of a desire to be fully understood, President Roosevelt in his Labor Day speech at Northfield, Mass., returned to the subject and in his own frank way stated the American position as to this doctrine, the tenor of which is indicated today in the name of the statesman of a century ago for whom it was named. "We believe in the Monroe doctrine," said the president, "not as a means of aggression at all. It means merely that as the biggest power on this continent we remain steadfastly true to the principle that this continent must not be treated as a subject for political colonization by any European power. It is a doctrine of peace, a doctrine of defense, a doctrine to secure the chance on this continent for the United States to develop peaceably along their own lines."

There is no jingoism in this. It is a fair, brave statement of a principle of American policy that no circumstance of time or change of international relations can alter. The United States neither believes in the forcible invasion of peaceful territory for mere land conquest nor will it permit other nations to invade the hemisphere upon which it is supreme for that purpose.

England need not show her teeth at every mention of the Monroe doctrine, nor should other European nations less friendly in their relation to us make it a cause for additional resentment. It is a fair, plain policy, neither so old as to be thought obsolete by us nor too young to have the binding force of organic conviction.

Unusual Procedure.

Gov. Stone is quoted as saying he will make speeches for Pennypacker if asked to do so. This, of course, means he is in favor of the election of Pennypacker and against Pattison. The state legislative board of railway employes at a meeting in Harrisburg indorsed Robert E. Pattison for governor. It is needless to point out where this places its members with regard to Pennypacker. It was on the same day that Stone made himself clear as to his attitude toward Pennypacker and Pattison that the committee of railroad men did the same. Supplementing their political indorsement they notified the governor that they would await his arrival at Harrisburg for the purpose of asking him to call a special session of the legislature to deal with the anthracite coal strike and provide the machinery of compulsory arbitration. The governor replied, fixing a time to receive them and have them give reasons in support of their demand.

The committee assumes to represent labor sentiment in its demand on the governor, and it is labor sentiment that has been influential in securing a promise from Senators Quay and Penrose to endeavor to obtain another hearing for the strikers with a view to bringing the strike to a close. The United States senators are even more concerned for the election of Pennypacker than is the governor, and their political fortunes are more closely connected with his success. But while the United States senators and the governor are asked because of their political positions and influence to do labor's bidding, the committee of railroad men serves notice that whether or not its demands are complied with, it is heart and soul for the man whose political success means the political overthrow of those whose present help in their political capacities is relied on to promote labor's cause. The situation is not without its humorous features as an exhibition of the childlike ignorance of the members of the state legislative board of railway employes of the ways of the world and the usual reciprocal relations that obtain between seekers and grantors of political or business courtesies. Why not ask their friend Pattison for help? His friend and political supporter, George F. Baer, president of the Reading railroad, is the keystone of the resistance of the coal operators to the miners' demands. Pattison ought to be able to do something with him.

However, while it is customary for people seeking political aid to go to their political friends for it instead of to those toward whom they proclaim hostility, and while it is unusual for those who ask a favor to emphasize it with a blow, the questions involved in the anthracite coal strike are of too great public importance to be dealt with in a narrow, passionate spirit. They should be considered on their merits alone, without regard to the political bias of those who petition.

At the same time we believe the legislative board of railway employes speaks only for the members of the board in its indorsement of Pattison, and does not represent the views of railway men or of labor in general.

Senseless Vandalism.

It is astonishing to what extent merely willful defacement of property is practiced in Pittsburgh. The match-striking habit on the walls of buildings and upon every convenient place that may offer a surface is of such common practice as not to excite attention. And yet so simple and careless an act as striking a match may bring about a defacement that will be an eye sore or else cause an innocent property holder to spend several dollars in repairing the injury. But the public vandal doesn't stop with striking matches on other people's walls. He is recklessly indifferent to the preservation of every kind of property within his reach, provided it doesn't belong to him.

It isn't safe to expose a glass dialed thermometer to the onslaughts of the local vandals. They smash them at the first opportunity. Windows, doorways, railings that project on the sidewalk, posted notices and all objects of private ownership placed within reach of public touch suffer the same fate. There ought to be a strong, vigilant crusade against the senseless vandals inaugurated by the police. Persons who lack the thoughtfulness to make them respect other people's property should be taught the art, even though it requires arrest and a good, stiff fine to impress the lesson.

The Kaiser in Poland.

While Kaiser Wilhelm is in Posen he will feel that he is in the enemy's country, if the Polish residents succeed in their intention to make him understand that he is an unwelcome visitor. The Poles are quite certain that the army maneuvers are being held at Posen for the express purpose of overawing the agitation for Polish local government, and by way of resentment they have refused to decorate their residences or to take any part in welcoming the German emperor to that portion of his dominions.

The unrest in Poland which has been so marked in recent years has been greatly increased in the last 12 months by the determined efforts of the Prussian government to Germanize its Polish provinces. Less than a year ago 60 Polish schoolboys were put on trial at Thorn "for belonging to a secret society, the sole object of which is to promote the study of Polish literature and history." A few weeks later some school children at Wrenschen were flogged for their refusal, in accordance with the admonition of their parents, to answer their religious instructor in German, an incident which caused the people to carry the school house by assault. On this occasion a bloody conflict between the populace and the police was only averted by the prudence of Counselor von Masenbach.

Efforts to make German citizens out of the Polish people by these drastic methods, and the results of these efforts attracted wide attention and called forth strong criticism from newspapers outside of Germany. The government journals, however, such as the Vossische Zeitung of Berlin, the Frankfurter Zeitung and the Hamburger Nachrichten, justified the course of the authorities on the ground that the Poles are rebels and that their aspirations for a revival of Polish literature and the study of Polish history are dangerous to the peace of the empire. Perhaps this is the view taken by the emperor himself, and perhaps he hopes, by an imposing display of military power in Poland, to convince the Poles that they might as well abandon all national aspirations and try to content themselves as German subjects.

Ohio Democratic Dissension.

Though Mayor Tom Johnson has possession of the Ohio Democratic convention, it is by no means such complete possession as had been advertised in advance. John R. McLean's man, Lewis Bernard, was not left out of the calculation, but headed the Hamilton county delegation as was his wont before his collision with "Fighting Jimmy" Campbell when that gentleman temporarily put him out of business.

Not only is Johnson's supremacy less complete than predicted, but the opposition has shown more ugly spirit than was anticipated. There were scenes of positive disorder. These are but preliminaries to the factionalism that will be carried into the campaign, for while Johnson may tour the state spectacularly in his tent, McLean will sulk in his tent like Achilles of old, with never a heel to be injured.

John R. McLean is not much of a winner in politics, but every Ohioan knows him to be no mean power as a recalcitrant. His fatal opposition to Campbell is well remembered. He has played the same role on other occasions and will again. He is just too weak to satisfy his own ambition and just strong enough to balk that of the brilliant but erratic Mayor Tom Johnson.

Elkins and Reciprocity.

The prospective failure of the Cuban loan has moved Senator Elkins of West Virginia to reiterate his argument for complete union of Cuba with the United States as opposed to a grant by this country of reciprocal relations. Senator Elkins holds that annexation would not work to the detriment of the sugar and tobacco interests of the United States as would a reduction in the duty. Free trade among the states, he points out, has always been beneficial, and he therefore argues that free trade between Cuba (as a part of the United States) and the United States as a whole would benefit both. It may be all quite clear to Senator Elkins, but if relations that would give Cuba free entry to the markets of the United States would not injure this country it is not quite clear to others than Senator Elkins how the partial freedom implied by a mere reduction of duties on Cuban goods would be an injury.

Failure of the Cuban loan proves nothing for Senator Elkins' opposition to reciprocity. It shows lack of confidence in Cuba's future as an independent nation, but this, instead of proving the correctness of the West Virginia senator's contention against reciprocity, is an additional reason for granting it.

Took a Cheaper Way.

From the New York Times.

Cato had just finished a speech with the usual words, "Carthage must be destroyed!"

"Why not," suggested a senator, "capitalize a company and offer to build them a rapid transit subway?"

The Romans were well pleased with the idea, for they realized how thoroughly the city would be devastated. The expense, however, seemed too great, so they sent over Scipio with his army and did a cheap and effectual job.

THOUSANDS LOSING THEIR BIRTHRIGHT

Parsimony of Gotham's Treasury Watchdogs Keeps Children Out of School.

THE PITTSBURGH GAZETTE BUREAU,
Herald Building, Herald Square,
NEW YORK, Sept. 2.

When the public schools of Greater New York open next Monday it is expected that nearly half a million pupils will seek admission. The school buildings will not accommodate more than seven-eighths of the number, and there will be thousands of children only too glad to enjoy the advantages of "part time" classes, with many others shut out altogether. The conditions in New York are not paralleled in any other city in the country. The reason for the difficulty is nothing but municipal parsimony. Under Mayor Van Wyck there never was enough money appropriated for educational purposes, and the overcrowding which has been notorious for the last decade was continued, without any immediate prospect of relief. City Supt. Maxwell, in his last report, advised the board of education to ask for a large sum of money which would pay for a number of school buildings. The board, nothing loth, requisitioned the board of estimate for $16,000,000 for new schools, sites and additions to old schools. This amount would have given a seat in school for every child of school age in the city, besides providing for the total yearly increase for the ensuing five years. The board of estimate, ever inclined toward economy—sometimes offensively so—promptly cut down the appropriation to $6,000,000, with the consequence that the buildings to be erected will not cover the needs even of this year. It is believed, judging by the increase in number of pupils from year to year, that there will be not be fewer than 493,000 children registered as public school pupils next Monday. In cities like Pittsburgh, where such a thing as an American child being shut off from his birthright of education for lack of room is unknown, the conditions that have long prevailed in the metropolis are hardly understandable. They are here, however, and until the city authorities give more attention to the matter than has been the case, they not only will continue but grow materially worse.

Labor Day Dulls Industry.

This has been "Blue Monday" in New York. Of course, it is Tuesday, but the "Monday feeling" is much in evidence. It was manifested all day in a disinclination on the part of clerks and workers generally to move swiftly, and in the tendency of merchants and other business men to chat and let things go, so long as nothing broke. "Labor Day" is an anomaly. Not only is it a day of abstention from labor, but it seems to knock industry on the head on the day following, in New York, at all events.

Uncle Sam's Noisy Shipyard.

When one build's a battleship he makes noise enough to be heard all over the district. The word "one" is used figuratively, of course. There are hundreds of men engaged in the preliminary work of constructing the new sea-fighter, "Connecticut," at the navy yard, and each man is doing a good day's work in every 24 hours. Because he is working so faithfully it may be necessary to move the office of the commandant of the yard farther from the scene. The huge piles are driven home by a steam hammer, and at every blow there is a reverberation that shakes the earth for 100 yards around. It also jars things in the commandant's little old-fashioned den where the dignity of the United States is preserved only by a large American flag and the deathless traditions of the place. The office is small and awkward, and to get to it one has to climb a flight of narrow steps, strongly resembling the steps of the "Yellow row" in Pittsburgh. Considering these disadvantages, the navy department is inclined to build a new headquarters edifice which shall be more in keeping with its importance. The noise inscparable from the building of the "Connecticut" will hasten the sanction, probably.

Second-Hand Locomotives For Sale.

This is a good time to buy a locomotive engine cheap. The Manhattan Elevated Railroad Company has 300 engines for sale already and will have many more when electricity is installed on the West Side as well as the East Side. The engines are small but are said to be excellent of their kind. They have been used on the "L" structure with perfect satisfaction, notwithstanding that because of the nature of their work they were necessarily very light. If anyone wants to build an elevated railroad in another city he cannot do better than look over the assorted lots of locomotives just dropped by the Manhattan company. More than 40 of the engines have been sold already at prices ranging from $2,200 to $6,000 each. They are of standard gauge and most of them can haul a load of 110 tons up a 2 per cent grade.

Early Season Theatricals.

This is a busy theatrical week in New York. Last night there were "The Rogers Brothers in Harvard" at the Knickerbocker, "The Emerald Isle" at the Herald Square, and several less important openings on the East and West Sides. Tonight Wallack's opened, with Miss Alice Fisher and a well-chosen company, in "Mrs. Jack." On Thursday John Drew will open the Empire with a production of "The Mummy and the Humming Bird," an English comedy which is expected to repeat its success across the water. Another theatrical event of moment will be the sale by auction on Thursday of Weber & Fields' seats and boxes for the opening of the music hall with the new extravaganza, "Twirly-Whirly," next week.

Mrs. Roosevelt Fails to Set a Fashion.

A young woman who sees things said to me tonight: "Do you notice that Mrs. Roosevelt's attempt to introduce dinner jackets, instead of the regulation evening gown, is not followed at all in New York? You don't notice it, you say? Well, that either is because you keep your eyes shut or do not go to many swell dinners. Some weeks ago, when the first lady of the land went to dinner in Washington with a highly ornamental jacket covering her shoulders, there was a convulsion among society writers. I felt a spasm or two myself. Then I looked to see whether smart women here would follow the example of the president's wife. Some of them made a feeble attempt to do it, but they soon gave it up, and if any of them has a dinner jacket now she keeps it out of sight. It takes more than one woman's dictum, even though she be the wife of the president of the United States, to change a well-seasoned feminine fashion."

Seeking Musical Training in Berlin.

Mrs. Minna Kauffmann Sorg, for a long time soprano of the quartet at the First German Lutheran church of Pittsburgh, sailed this morning for Europe on the Hamburg-American liner Bluecher. She is accompanied by her mother, Mrs. C. Kaufmann, and her little son. Mrs. Sorg intends to spend two years in Berlin studying at the Royal Conservatory of Music in the German capital. J. G. Kaufmann, her brother, came with them to this city to see them embark. He will remain in New York for a few days on business and pleasure combined.

Holding Off From Roosevelt.

There are busy times in "Amen corner." Senator Platt has his eye on the state convention, and all kinds of rumors are afloat as to his intentions and wishes in that connection. In brief, it may be said that President Roosevelt's friends here are surprised at the announcement by Platt that the Republican state convention will not demand his nomination for the presidency two years hence. In view of the action taken by the Republicans of other states in their platforms, and the general understanding that both Senator Platt and Gov. Odell had pledged their support to Mr. Roosevelt in the national convention, the determination not to indorse him for the nomination is causing the president's friends to wonder whether there is a string attached to the promises of the leaders. Of course this is only gossip, and perhaps it is not altogether good-natured gossip, but "Amen corner" is discussing it, beyond all question.

Justice for Children.

There was much interest in the opening of the new children's court in the building that used to be the headquarters of the charities department at Eleventh street and Third avenue this morning. There was not a large audience in the lobby because police court loafers will be rigorously excluded from the hearings; but there were a great many people having a legitimate interest in the matter who had come to see the wheels of justice move in a new groove for the first time. The new court has the functions of a magistrate's court and also of special sessions. The judge, sitting as a magistrate, determines whether a charge shall be made and the prisoner held for trial. Then the trial may proceed and long delays be avoided. Supt. Jenkins of the Children's society has taken great interest in fitting up the rooms. In the boys' waiting room games of checkers, books and magazines are provided. The girls will find dolls, playthings, picture books and the children's supplements of the newspapers in their room. All the judges of special sessions will sit in turn except Judge Hinsdale, presiding judge. Daily sessions will begin at 10:30 o'clock and all arrested during court hours will get a hearing immediately. The authorities here are positive that a police cell is no place for a child for any length of time.

Following Pittsburgh Phil's Lead.

There is a jolly party of well-known Pittsburghers here who have been paying close attention to the races at Saratoga as well as at Sheepshead bay. One of them cleaned up a neat sum of a few thousands on the Futurity on Saturday on a tip from Pittsburgh Phil. That astute plunger backed Keene's stable himself, as a matter of sentiment, I am told; but he told his Pittsburgh friend to put his money on Savable. Yesterday Phil bet on Gunfire at odds of 15 to 1. It could hardly be called a "plunge," for he put down only $1,000. He won $15,000, however, which was not bad, although the papers here say that it was $50,000. One funny thing was that the Pittsburgher who won on Savable on Saturday tried to follow the lead of Pittsburgh Phil and bet on Gunfire, but could not get through the crowd to the bookmaker before it was too late. He feels that fate used him hard in that case, although, as Pittsburgh Phil reminded him this evening in the lobby of a Broadway hotel, it is not always safe to follow the plunger's lead, as witness the Futurity in which Phil dropped a lot of money by betting on Keene's stable. On the whole, it looks as if the Pittsburgh party will get home this week with more money than they brought away.

Too Many Guests for the Barbecue.

That was a great barbecue given by "Big Bill" Devery down by the North river yesterday. The Gazette representative was there, but in common with hundreds of others, never came within reaching distance of the beef and beer. As a matter of fact, the refreshments seemed to be limited to a select company of heelers and personal friends of the chef, waiters and amateur bartenders, and long after the function was over the favored ones could be seen asleep on neighboring lumber piles, occasionally muttering an incoherent "Hah fer Devry!" or feebly demanding "Nother beer." Devery's speech was so refreshing, however, that it quite supplied the place of beer to those that did not get any. The barbecue was distinctly the fashionable political event of the season down in "De Nint'."

Stale Bread Calls for Divorce.

In a neighboring New Jersey village it has been decided that a wife may sue for divorce on the ground that her husband forces her to eat stale bread. In view of the fact that every other possible cause for divorce has been exploited, this one has a passing interest for married couples everywhere. The applicant in this case in Jersey calls the stale bread performance "extreme cruelty," and it looks as if the judge might hold that the term is well chosen. GEORGE C. JENKS.

The President on Mob Violence.

From the Chicago Tribune.

President Roosevelt has touched upon many questions in the addresses he has made during his present tour and has expressed his views upon them all clearly, tersely, and forcibly after his customary manner, but not one of his utterances has been more timely or important than those delivered on Saturday upon the growing evil of mob violence. His characterization was timely because almost every day's news enforces its necessity; important, because the evil against which he so forcibly inveighs meanaces justice and strikes at the roots of good government.

IN OUR STATE.

PARTY IS A SHAM.

From the Philadelphia Public Ledger.

The men who organized the Ballot Reform party in Pittsburgh are said to have become ashamed of their work and to be on the point of abandoning it, not because it is not good work, but because the party is a sham and its platform a work of hypocrisy.

TWENTY-SECOND DISTRICT MUDDLE.

From the Philadelphia Press.

To this Congressman Showalter opposes his own demand for three conferees from each county, which would inevitably lead to a deadlock and a final nomination by the chairman of the state committee. The whole matter, however, has been clearly taken out of the Butler county candidate's control by the action of the party organization. There is reason to believe that the agreement is satisfactory to the Republicans of Butler county generally, as they are assured the nomination twice in five times.

REGENT RESENTS KAISER'S BLUNDER

Well-Meant Offer of Money Too Freely Advertised at Berlin.

By the MARQUISE DE FONTENOY.

While the regent of Bavaria and his children thoroughly appreciated the excellent intentions which prompted the kaiser, on the impulse of the moment, to dispatch his much discussed telegram, placing at the disposal of the prince the 100,000 marks which the latter had asked from the Bavarian chambers for the purpose of adding to the national art collection, and which had been refused, they deeply resent the emperor's action in causing the publication of the telegrams on the subject which passed between the regent and himself. The prince regent had specially forbidden the publication of the telegram in any of the Bavarian newspapers, realizing full well the bad blood that would be created throughout non-Prussian Germany by the well-meant, though somewhat unfortunate interference by the kaiser in a difference of opinion between the Bavarian crown and the Bavarian people. It was only through the Prussian newspapers that he learned the correspondence had been given to the press by the kaiser, and it is stated that at first he was completely dumbfounded, and then very indignant, understanding well it would add to his difficulties, and impair his popularity with his people.

Count Moy's Wife.

The Bavarian nobleman who presented the regent with the money which the Bavarian legislature had refused, and who thus enabled the aged ruler to inform the kaiser that the funds had already been furnished, is the exceedingly wealthy Count Moy, chief of the old Franco-Bavarian house of Moy, and a particular favorite at court. He is married to Countess Sophia Stepperg, a lady who was legitimized nine years after her birth by an act of the Bavarian crown. She was the sole child and heiress of the late Count Aloys Arco, who immediately on the death of his first wife, Margravine Pallavicini, married a Miss Oswald, by whom he had a daughter, already nine years old. This daughter was, a few years later, legitimized by the late King Louis of Bavaria, and created Countess Stepperg in her own right. At the age of 22 she married Count Moy, the donor of the 100,000 marks above mentioned.

Americans Shut Out.

There is one reason why Americans can never become members of the leading English yacht club, known as the Royal Yacht squadron, which I have not seen mentioned until now. It is the fact that the yachts owned by the members of the club are placed on the same footing as the ships of the navy, and provided with British admiralty warrants and are in theory British men-of-war. On the high seas and in foreign ports they have all the rights and privileges of full-fledged men-of-war, which saves them no end of trouble in foreign harbors. If a birth or marriage takes place on board a yacht owned by a member of the Royal Yacht squadron it is said to have taken place in British territory. If a crime is committed on one of these yachts while in a foreign port, say for instance, in New York harbor, the criminal, unless his offense is against the peace of the port itself, is not subject to the jurisdiction of the port; that is to say, of the American authorities, but would be brought back to England or taken to Halifax for trial.

The outward and visible sign of this remarkable privilege, which, of course, could not be granted to any but an English citizen, is the fact that these yachts fly the white ensign precisely like the full-fledged warships; that is to say, the white flag with the great red St. George's cross, and the union jack in one of the latter's angles.

I hear, by the by, that although six new members were elected the other day to the Royal Yacht squadron, yet Sir Thomas Lipton was once more left out in the cold, despite all the efforts of influential friends in his behalf, the king first and foremost.

Russian Adventurer in Disfavor.

So little has been heard for a long time past about that extraordinary Russian adventurer, Leontieff, who sported a title of "count," which he claimed to have been conferred upon him by the emperor of Abyssinia, and who was the associate of the late Prince Henry of Orleans in his Abyssinian enterprises, that it may be worth while to state that according to a letter from the French Marquis du Bourg de Boyas, who is now in Abyssinia, Leontieff, with his Russian Cossacks and his Senegalese from French West Africa, have been ordered by the negus to immediately leave his dominions under pain of imprisonment—and worse.

All sorts of atrocities and outrages have been laid at the door of Leontieff and of his followers, as having been perpetrated in the frontier provinces of Emperer Menelek. Information concerning them having been furnished to the dusky ruler by the American explorer, Hugh Whitehouse, and by his English fellow-travelers, Lord Hindlip and F. Harrison. Leontieff has at the same time been deprived of his office of governor of the equatorial province of Abyssinia, and will be lucky if he gets out of the country with his men safe and sound, as now that the favor of The Hague has been withdrawn from him the entire country is stated to be up in arms against him. One heard so much about him a few years ago, and he has dropped out of sight so completely since the death of Prince Henry, that the reason for Abyssinia concerning him cannot fail to prove of interest.

King Edward's action in conferring the decoration of a Knight Commander of the Victorian Order upon the bishop of Winchester has the effect of transforming the bishop's wife from "Mrs." to "Lady" Davidson. It is the first occasion of a bishop being knighted by a British sovereign, and of his wife thus receiving a title by her name. She is a daughter of the late Archbishop Tait of Canterbury.

Chance for Congratulation.

From the Philadelphia Press.

The Democratic newspapers in Alabama are throwing up their hats and shouting themselves hoarse over the assertion that the recent primary election in that state was free of fraud. Honest elections have been so rare in that state that when they have one they are as much tickled as a 4-year-old over his first pair of new boots.

BE READY.

When the train you wish to board comes rushing through,
Be ready;
Not a precious second will it wait while you
Wish to hurry back to see
If perhaps there still may be
Some little thing which you forgot to do—
Be ready.

When she sweetly looks at you and sighs some day,
Be ready;
Some one else may hover near, prepared to say
The word that you in fear
Hesitate to let her hear;
Love is often lost when it is turned away—
Be ready.

Opportunity will some day ring your bell—
Be ready;
She will not inquire if you're ill or well,
She will not stand waiting there,
While you hasten to prepare,
She must hurry to where anxious others dwell,
Be ready.

A messenger will summon you some day—
Be ready;
He will not withdraw, implore him as you may,
He will not consent to wait
While you pray to God, too late,
To let you live to clear mistakes away—
Be ready.

THE DEATH ROLL.

David M. Kammerer.

David M. Kammerer of No. 3506 Perrysville avenue, Allegheny, died on Monday at the Massachusetts General hospital in Boston after an illness of two weeks. The remains arrived at the family home yesterday. Mr. Kammerer was the senior member of the firm of D. M. Kammerer & Co., wholesale shoe dealers, of Smithfield street, and was well and favorably known in business circles. He was in Boston on business at the time he was taken ill, and his wife was summoned, being with him at the time of his death. He was born 48 years ago near Washington, Pa., but had been a resident of Pittsburgh for almost 25 years. Mr. Kammerer was a devout member of the Eighth Presbyterian church. He is survived by his wife, one son, C. R., a sister, Mrs. Robert Herron of Washington, Pa., and four brothers, W. S., Harry L., M. McClelland and James Kammerer.

Capt. Jacob J. Bierer.

Capt. Jacob J. Bierer died at his home in Latrobe, Pa., last night of cancer of the throat. He had been a resident of that place for 40 years and identified with the town and county's growth. He was born in Greensburg 70 years ago. When the civil war broke out he organized Company C, Eleventh Pennsylvania volunteers, and went to the front as captain of the regiment. During the second battle of Bull Run he received a serious wound and for some time was confined in the army hospital. He received special recognition for bravery on the field. He was prominent in local Masonic circles and other organizations. In 1865 he started the Loyalhanna paper mills and later entered the real estate and insurance business, at which he continued up until about a year ago. He served in the state legislature during 1883, 1884, 1887 and 1888, as a Democrat. He is survived by two daughters, Mrs. George Delaney of this place and Mrs. Michael Schaff of Belmont.

Charles B. Sorg.

Charles B. Sorg, aged 40, for 15 years employed as liquidating clerk in the office of the collector of customs, died on Monday at the home of his uncle, John Stewart, in Venango. He left his home at No. 28 Vilsack street, West Etna, together with his wife, to spend Labor Day with his uncle, was taken suddenly ill that morning and died in less than two hours. Death was due to heart trouble. Mr. Sorg was born in Allegheny, but for the past two years had lived in West Etna. He was a member of the Heptasoph and Masonic fraternities, and was well known throughout both cities and all of Western Pennsylvania. He is survived by his widow, two sons and two daughters.

William F. Howe.

William F. Howe, of the famous law firm of Howe & Hummel, died suddenly at his home, 1245 Boston street, New York, Monday night, of heart disease. Mr. Howe was in his 75th year. During the war he was known as "Habeas Corpus" Howe, from the number of men whose discharge from the army he procured. He was known as the father of the criminal bar in New York.

Wheeler Stevens.

Wheeler Stevens, one of the wealthiest men of Southeastern Ohio, died at The Laurels, his country home, near Zanesville, O., yesterday. He was the founder of the Wheeler-Stevens Wholesale Grocery Company, and had extensive real estate holdings in Zanesville, Columbus and Florida. He was 69 years old.

Isaac Eaton.

Isaac Eaton, a resident of Allegheny, died at his home, No. 305 West Robinson street, yesterday of pneumonia. He was 43 years of age and is survived by three daughters, Mrs. Joseph Cunningham of Irwin avenue, and Misses Irene and Myrtle, at home. He came to Allegheny from Rochester, Pa.

Obituary Notes.

John Schmitt, aged 69, a contractor of Allegheny, died at his residence in Wilkins street yesterday at 4 p. m. The notice of the funeral will be given later.

Mrs. Minnie Nierste Meyer, wife of J. M. Meyer, a prominent South Side contractor, died at their home, No. 2110 Sarah street, on Monday of typhoid fever. She was 44 years of age.

Mrs. Elizabeth Dorman, aged 67, died Sunday at her home in McKeesport. She is survived by five children: William, Louis, Eli, Jeremiah and Josiah.

Miss Clara Louise Ittel died at the home of her parents, Mr. and Mrs. Philip Ittel, No. 908 Church avenue, Allegheny, yesterday morning, at the age of 23. She was graduated from the Allegheny High school in the class of '98 and was prominent in mission and church work.

Mrs. Rosanna Grasble, 69 years old, died at the home of her daughter, Mrs. C. A. Givens, Chartiers avenue, McKees Rocks, after a short illness. The deceased was a prominent member of the Methodist church and is survived by five children. Funeral services will take place this evening.

PERSONALS.

J. W. Patterson, chief engineer and general manager of the Wabash extension to Pittsburgh, left for New York last evening armed with documents and blueprints to confer with President Joseph Ramsey, Jr., of the Wabash. Mr. Ramsey is summering at Southampton, Long Island. The matters to be taken up include the advance on the extension work, the new line to the Fayette and Greene county coal and coke region, the ordinances soon to be presented in Pittsburgh councils and other important features of the work. Mr. Ramsey is not expected in Pittsburgh again for a couple of weeks. He will join George J. Gould in a tour of inspection of the Wabash. Mr. Gould is now inspecting the lines of the Missouri Pacific, another Gould road.

Lieut. K. Shibaoka, who is connected with the Japanese government as a naval contractor, arrived in the city last night. For the past six months he has been stationed in London, and is now on his way home, via San Francisco. He will spend today in Pittsburgh, inspecting the various leading industries, and will visit the armor plate mill of the United States Steel Corporation at Homestead. He is particularly interested in the Homestead plant, after having visited the big Krupp works in Germany.

United States Immigrant Inspector Robert D. Layton went east last night, taking with him Augustus Snider, a native of Germany, who will be deported to his native country. Snider came to Allegheny last April and has been a charge on that municipality since. He is suffering from an incurable disease.

The Rev. M. K. McElveen, for a year past minister to the Claysville and Pleasant Grove Baptist churches in Washington county, has resigned his charge and accepted a call to the pastorate of the Wylie Avenue Baptist church in this city.

AMPLE CHOICE OF GOOD SITE FOR HOSPITAL

Bids Opened by the Treasury Range All Way Between $9,000 and $70,000.

SIXTEEN TRACTS PRICED

Special Agent Will Inspect the Places Offered and on His Report the Supervising Architect Will Base His Decision for Marine Service.

THE PITTSBURGH GAZETTE BUREAU,
603 Fifteenth St., N. W.,
WASHINGTON, D. C., Sept. 2.

Sixteen tracts of land in Pittsburgh and Allegheny have been offered to the government at prices ranging from $9,000 to $70,000, as sites for the marine hospital which is to be built in Pittsburgh at a total cost of $150,000. Bids for the site were opened this afternoon at the treasury department by Supervising Architect Taylor.

A special agent of the department will be sent to Pittsburgh to inspect and report upon the sites. Then, on his recommendation and that of Supervising Inspector General Wyman of the Marine hospital service the selection will be made. After a site is selected it will require some time to secure a title, and then work will begin on the plans for the buildings.

The bids which were opened today were:

Barr Bros. & Co., five acres, at Reed street and Breckenridge avenue, $65,000.

Olivia M. Chailly, 270x300 feet, Cornwallis street and Brickenridge avenue, $33,000.

Same bidder, 360x333 feet, Berthold and Wallace streets and Breckenridge avenue, $55,000.

J. H. Wise, four acres, 800x100 feet front on Ohio river and Pittsburgh & Lake Erie railroad, $700 per acre.

F. W. Barker, Second avenue, Trenton avenue and Elizabeth street, 255x370 feet, $45,000.

Milton I. Baird, Dawson avenue, near the Ohio river, five acres, $25,000.

Commonwealth Real Estate and Trust Company, Bridge street, Bedford avenue, Watt street and Junille street, 400x200 by 480x287 feet, $40,000.

Rose White, 214x139 feet, Grandview avenue, Jones lane and Bigham street, $20,000.

H. C. Mandel & Co., Fremont street, near California avenue, 288x250 feet, $13,000.

Same bidder, James street, Pittsburgh, Ft. Wayne & Chicago railroad, 200x286 feet, $9,000.

Same bidder, James and Madison streets, six acres, $45,000.

Same bidder, California avenue, near Home avenue, 225x125 feet, $17,000.

George W. McCallan, Forbes and Shady avenues, 200x200 feet, $70,000.

Same bidder, 343x487 feet, Bedford and Ridge avenues, $52,000.

Same bidder, 112x245 feet, Fortieth and Fisko streets, $31,000.

Same bidder, 125x245 feet, same location, $25,000.

W. C. Shaw, Lincoln, Thomas and Bayne avenues, 185x325 feet, $60,000.

THE VETERANS' MECCA.

All Signs Point to a Great Encampment of the Grand Army at the National Capital.

WASHINGTON, D. C., Sept. 2.—(Special.)—While driving through Yellowstone park recently Col. Thomas G. Sample, commander of post No. 128 of Allegheny and a member of the national executive committee, heard a man shout from a cliff near the road: "Hello, comrade, I'll meet you in Washington."

Col. Sample is now in the capital city, arranging to have his post camp in the park near the corner of Fifteenth and B streets, N. W., and he tells the story of the Yellowstone experience as indicating the interest in the encampment prevailing throughout the country.

"I have just been to San Francisco," said, "stopping over at various points along the line. If my judgment the attendance of veterans is going to represent the whole strength of the Grand Army of the Republic of today. Pennsylvania alone has registered 7,000 men who are coming to the encampment, and that means that 10,000 will make up their minds to come. Out west you hear the Washington encampment everywhere. Every man, apparently, is going to bring his wife and children or his children's children. The crowd will surpass any crowd ever assembled in Washington. My post will bring 125 members and a band of 24 pieces."

FREE DELIVERY ROUTES.

Changes Wrought by Them in Mail Service of Several Places.

WASHINGTON, D. C., Sept. 2.—(Special.)—The postoffice at Ryerson station, Greene county, Pa., will be discontinued September 30 and the one at Prosperity, Washington county, O., on September 15, both being then superseded by the rural delivery of mail service.

A new postoffice has been established at Davy, Hampshire county, W. Va., Rada B. Davey, postmaster.

On September 15 a rural delivery of mail route will be established from St. Clairsville, O., to run to Lloydsville, and another from Elkins, W. Va., to run to Raymond, Thompsonville, North Cape and Franksville.

Miles' Voyage Delayed.

WASHINGTON, D. C., Sept. 2.—It was expected that Gen. Miles would leave on his tour of inspection of the Philippines tomorrow and sail from San Francisco on the transport Thomas, on the 16th. The pressure of work in his office is so great however, that he finds he will not be able to leave Washington before next Wednesday.

Henry White Arrives.

NEW YORK, Sept. 2.—Henry White, secretary of the American embassy at London, was a passenger on the steamship Kaiser Wilhelm der Grosse, which arrived today from Bremen.

THE summer colony at Beaumaris will break up in a week. The Pittsburgh families which have been occupying summer homes in the Muskoka lake region will then come home. Professor and Mrs. John A. Brashear, who have a most delightful cottage on the Isle Urania, are expected in town September 10, and with them will come their grandson, James A. MacDowell. The daughter, Mrs. James B. MacDowell, has been home for a week, opening the house in Perrysville avenue, Allegheny. The wedding of Miss Jean Duncan and James A. MacDowell, son of Mr. and Mrs. James A. MacDowell, and Mr. and Mrs. Brashear's grandson, is to take place in October, the exact date not yet having been decided.

Mr. and Mrs. Reuben Miller and their family are expected to come home September 10 with the Brashears. Mr. and Mrs. Wilson Miller of Lincoln avenue, Allegheny also being expected home at the same time. Mrs. S. N. Benham and Mrs. Robert D. Book went to Beaumaris a week or so ago to attend the wedding of their sister, Miss Anna Harvy Miller, and Charles Ogle Scull, which took place on Wednesday, August 27. The young couple left immediately after the wedding for the states, while the bride's sisters remained for a short visit with their parents, Mr. and Mrs. Miller.

Mr. and Mrs. John Walker will stay in Beaumaris a few weeks longer and will come home early in October. Dr. L. H. Willard and his family spent the summer in Europe and did not occupy their cottage at Muskoka lake.

Canada has been a popular summer resort this season with Pittsburgh people. Several new camps have been opened, while wealthy men from this city have leased or purchased summer homes in picturesque localities. At Alexandria bay are the Gilbert Raffertys and the S. H. Vandergrifts. In a recent ping-pong tournament held by the summer visitors Miss Elsie Eakins of Brooklyn won the women's prize, and R. S. Duff of Pittsburgh the men's trophy.

Simeral-Cordes.

One of the prettiest church weddings in Bellevue during the past year, was that of Miss Cora Everett Simeral, daughter of John A. Simeral, to Charles Lewis Cordes of this city, which occurred last evening. The ceremony was performed in the Bellevue Presbyterian church, at 8 o'clock, by the Rev. Dr. D. S. Kennedy, of the First Presbyterian church, Allegheny, assisted by the Rev. W. A. Ralston, pastor of the Bellevue church. The church presented a very pretty appearance, with its decorations of palms and ferns. The bride was given away by her father. She was gowned in white English chiffon over taffeta, trimmed with duchess lace. Her veil was fastened with orange blossoms and she carried a shower bouquet of bride's roses and lilies of the valley. Miss Lida McKeever, the maid of honor, wore white silk, and carried a bouquet of pink roses. The bridesmaids were Miss Mary Ferguson Simeral, Miss June Anderson McKeever, Miss Ella Cordes and Miss N. G. Seigmiller, who were daintily gowned in white organdie with pink chiffon sashes, and carried bouquets of pink asters. Frank Cordes, brother of the groom, acted as his best man, and the ushers were R. L. Galleher, J. S. Alexander, Howard Galleher and Dr. R. F. Simeral. The ceremony was witnessed by a large number of people, friends and relatives of the bride and groom. Immediately after the ceremony a reception was held at the bride's home in Forest avenue. Over 100 friends and relatives were in attendance. Mr. and Mrs. Cordes left for their wedding tour after the reception. After the last of September they will be at home to their friends at No. 40 Forest avenue, Bellevue.

Engagement Announced

BEAVER FALLS, PA., Sept. 2.—(Special.)—Miss Flo McAnlis entertained her friends at a fancy work party at her home on College hill tonight, and embraced the occasion to formally announce the approaching marriage of herself and M. W. Hurd, which will take place this fall. Miss McAnlis is the daughter of J. D. McAnlis, a wealthy jeweler of this place, and is a very pretty and accomplished girl. She is a graduate of Geneva college, of which her father is one of the trustees. Mr. Hurd is the son of wealthy parents who reside in Chicago. He has been residing here for several years, and is a rising business man.

At Home to Their Friends.

Mr. and Mrs. Albert H. Bargman have gone to housekeeping in the new house which Mr. Bargman purchased in Neel street, near Ninth avenue, West Homestead. They will be at home after Monday, September 8.

Mr. and Mrs. Bargman were married June 17 by the Rev. W. S. Cummings, in Homestead. Mrs. Bargman was Miss Nellie Chamberlain, a niece of Capt. John Hays, of Hope Church, Pa.

Wedding of Note at Warren.

WARREN, O., Sept. 2.—(Special.)—John D. Wick, Jr., of New York city, assistant treasurer of the American Sheet Steel Company and son of J. D. Wick of Chicago, today was united in marriage with Miss Mary Kinsman, daughter of Mr. and Mrs. John Kinsman, one of Warren's most prominent young women. Archdeacon A. A. Abbott of Cleveland married the young couple at the bride's home.

Wedding Cards Out.

Mr. and Mrs. George T. Bushfield of Stratford avenue, East End, have issued invitations for the wedding of their daughter, Miss Lida Bushfield, and Clarence Close, of the firm of Dauler, Close & Johns. The wedding will be held at the Christ Methodist Episcopal church, Shadyside, September 16. The engagement of Miss Bushfield and Mr. Close was announced over a year ago.

Wedding in Oakland.

The wedding of Miss Florence Burns and Henry George Hale Young, will take place on Wednesday evening, September 10, at the home of the bride, in Lawn street, Oakland. It will be a quiet affair. There will be no attendants and the guests will include only members of the two families. Mr. Young and his bride will make their home in Wilson avenue, Allegheny.

Opening the Studio.

William M. Stevenson of Bluff street yesterday reopened his music studio, which has been closed since the last of June. Mr. and Mrs. Stevenson returned to the city last week after spending a pleasant summer at Bemus Point, Lake Chautauqua.

Coming Event in Beaver.

BEAVER, PA., Sept. 2.—(Special.)—The engagement of Miss Nellie Maude Fallen, daughter of Mr. and Mrs. Robert E. Fallon, of this place, and Cyrus Daniel Javens, son of Mr. and Mrs. Thomas Javens of Rochester, has been announced.

Notes of Society.

The Braddock High School Alumni association has issued cards for a reception and dance to be given on Monday evening, September 15, at Kennywood park. The committees having the affair in charge is composed of Miss Catherine McLaughlin, Miss Clara St. Clair, Percy Bridges, George Sherwin, William A. Addenbrook and Edward Striebich.

Miss Grace Henderson of Allegheny has been spending the summer in Meadville, Pa.

Mr. and Mrs. S. S. McCurdy who have been in Atlantic City for some time, are expected home this morning.

VOYAGE RECORD BROKEN.

But the Kaiser Wilhelm der Grosse Fails to Equal Best Average Speed on Longer Course.

NEW YORK, Sept. 2.—(Special.)—Clipping one hour and four minutes off her best previous western voyage the crack liner Kaiser Wilhelm der Grosse came in this morning from Bremen, Southampton and Cherbourg, the exact time of the passage being five days, 15 hours and 20 minutes.

Over the short northern line the steamship voyaged, so that her average speed, 22.53 knots, was not equal to her best performance of 22.81 knots made on a longer trip.

HORSE SHOW MISHAPS.

Wealthy People Narrowly Escape Serious Injury at Newport.

NEWPORT, R. I., Sept. 2.—(Special.)—One or two exciting incidents marked the second day of the Newport horse show. Robert J. Collier had a thrilling experience on his Ascetic in the class for jumpers. Three times the horse carried the hurdle before him in a wild plunge to clear it. Once the horse, Mr. Collier and the bars were all mixed and it seemed as if the rider would get the worst of it. He kept his saddle, however, much to the relief of the crowd, and especially of Mrs. Collier, who was watching the performance from her box. Mr. Collier had Ascetic make a clean jump before he got through with him.

There was almost an ugly collision in the class for runabout horses, between Reginald Vanderbilt's exhibit, Frills, driven by Mr. Vanderbilt, and Mrs. Burke-Roches Carmen, driven by a groom. Both horses were being speeded, so that the judges could get a line on their gait, and as they neared each other at the end of the ring a murmur of fear ran through the throng. Mr. Vanderbilt held his horse in with great skill and the wheel of Mrs. Roche's trap caught in his shaft, but so lightly that it was unlocked with the next turn. Mr. Vanderbilt's horse went lame as a result.

Carmen won the blue ribbon in the class and Mr. Vanderbilt's horse got fourth award.

This Year's Pennant Now Won for Sure by the Champion Pirates

WON THE FIRST BUT DROPPED SECOND GAME

Best the Champions Could Do Was to Split Even With Brooklyn.

HANLON'S MEN KICKED

Disgusted Spectators in First Game. Cushman Pitched Well, but Pirates Could Not Hit Newton's Curves. Burke and Conroy Had Busy Day.

[SPECIAL TELEGRAM TO THE GAZETTE.]

New York, Sept. 2.—The Pirates and Brooklyn broke even today in a double-header at Washington park, Brooklyn, before a small crowd, considering the attraction—two games for one admission and Barney Dreyfuss' champions.

Both games were dull and uninteresting, and the continual kicking by the Hanlonites at Umpire Emslie's decisions disgusted the spectators before the first game was half over. In the eighth inning McCreery hit for three bases, scoring Dolan, and in attempting to stretch it into a home run he was caught at the plate. For fully five minutes one-half of the Brooklyn team surrounded Emslie and accused Leach of blocking McCreery at third, until he threatened them with expulsion from the grounds.

McCreery Helped Brooklyn.

"Deacon" Philippe had the better of Jimmy Hughes on the firing line, and but for McCreery the Brooklyns would have cut a sorry figure in the first game. Tom putting the ball over the right field fence in the second inning.

In the first game Pittsburgh scored their first run when Conroy drew a pass. Phelps singled and Phillippe sacrificed. Clarke also drew a pass and Conroy scored on Beaumont's fly to center. Conroy scored again in the fifth after singling to left, Phelps' sacrifice and Clarke's single. Leach worked Hughes for a pass in the sixth and scored on Tannehill's double to center. Conroy's hit brought Tannehill home.

Wagner opened the eighth inning with a single and was forced out by Tannehill. Burke and Conroy both hit safely, scoring Tannehill. For Brooklyn in the second inning McCreery put the ball over the fence. In the third they added another on singles by Keeler and Dolan, McCreery following it up, scoring Keeler. In the eighth, after Dolan singled and McCreery scored him with a triple, the latter caught at the plate on Phillippe's good throw to Phelps.

Just previous to the second game the Anthracite Glee club gave a concert for the benefit of striking miners and were applauded by players and spectators.

Cushman Pitched Well.

Cushman pitched the second game for Pittsburgh and let Brooklyn down with five hits, while Newton only allowed the champions three during the game. Not until the fifth inning could the champions get a man past first, when Burke hit for two bases, but was left there. The nearest the Pirates came to scoring was in the eighth inning when Conroy tripled, but neither Smith nor Cushman could get him over the plate.

Brooklyn scored in the first on a passed ball, Keeler's single and Dolan's hit, which forced Keeler. "Doc" Newton got to first on balls, reached third on Sheckard's hit and scored on Tannehill's wild throw. Sheckard gaining third and scored on Keeler's hit. Burke and Conroy played splendid ball, both at bat and in the field, accepting 30 chances between them and many of them on hard hit balls.

The champions will be very busy this week. They are scheduled to play 11 games in all, four of which are postponed contests from previous trips.

Ban Got a Cold Reception.

Secretary Pulliam said today: "Ban Johnson made a strenuous effort to secure Bransfield when the first baseman was ill at his home in Worcester, but I telegraphed 'Kitty' and the American league president got a very cold reception in Massachusetts." The score:

NOTES OF THE GAME.

The champions move on to Boston today to have an argument with Al Buckenberger's boys. It is expected that Kitty Bransford will join the team in the Culture City today and be ready to take his place at first base.

Phelps, the new catcher, made his first appearance in a game as a Pirate yesterday and caught Deacon Phil's curves. His backstop work was good, but he appeared weak with the stick, which may be due to a change of surroundings.

Burke and Conroy were a busy pair of Infielders yesterday, having 20 chances to handle, which they did in clever style. Burke is showing improved work at second base daily and he makes a fitting substitute for Claude Ritchey.

President Dreyfuss yesterday sent a telegram to Manager Clarke congratulating him and his players for winning the pennant for Pittsburgh the second time. Yesterday's victories over Brooklyn settled all possibilities and the Pirates could not be beaten now if they lost all their remaining games.

Cushman, the Millvale boy, pitched a good game yesterday and showed clever work in holding the strong Brooklyn batters down to five hits. His good work, however, was marred somewhat by his wildness, as he gave eight bases on balls, and those things count for as much as base hits. All Cushman needs is practice and experience and he will be a good one.

The Pirates have had such a cinch on this year's pennant that there was little or no display of enthusiasm here when the double victory at Brooklyn on Monday settled the matter. As it was a forgone conclusion that the team would win there was really no occasion for an outburst. What a difference there was last year when Pittsburgh got its first pennant. The final eastern trip last season was one continual round of enthusiasm.

QUAKERS WON TWO.

Seice's Team Seems to Be on the Toboggan.

PHILADELPHIA, Sept. 2.—Philadelphia took two games from Chicago today by good hitting. In the first game the home team bunched their hits in the fifth inning and made enough runs to win. In the second contest Menefee was hit freely. Both teams fielded well. Attendance 1,380. Scores:

BOTH GOT A GAME.

Boston and Cincinnati Divided Their Double-Header.

BOSTON, MASS., Sept. 2.—Boston and Cincinnati broke even today in a double-header. Cincinnati found Pittinger quite to its liking in the first game, hitting safely 13 times, while Boston found something of an enigma in Hahn. In the Boston half of the seventh inning Dexter was ordered off the grounds by Umpire O'Day, but the player was in the second game. Scores:

Detroit, Sept. 2.—Although the Athletics went through a railroad wreck in Indiana this morning, it did not affect their playing, and they took the first game of the series from Detroit. WHAT A SLUGGING MATCH.

Cleveland Batters Had a Regular Picnic.

CLEVELAND, O., Sept. 2.—In a game, which was both a slugging contest and a comedy of errors, Cleveland easily defeated Baltimore. Lundboom was wild and retired in favor of Joss in the third. Bay's batting and base running were features. Score:

GOES TO COMISKEY.

Lee Tannehill Gives Reds the Slip and Signs to Play With Chicago.

CINCINNATI, O., Sept. 2.—(Special.)—Lee Tannehill, the crack shortstop of the Louisville team, whom the Reds have been trying to secure, has signed with Comiskey's Chicago American team for next season.

The contract was presented to him accompanied with a check for a tempting amount of money and young Tannehill affixed his signature to the contract at his home in Dayton, Ky., at noon today. Tannehill refuses to divulge the name of the man who closed the deal, but gave out the positive statement that he will play with Comiskey's team during 1903. He refused to say how much his contract calls for. The stranger who secured his signature is said to be a Chicago newspaper man, who is acting as an agent of the American league.

CAPTAIN ON HAND.

Wash-Jeff's Talent Will Be Called Out.

WASHINGTON, PA., Sept. 2.—(Special.)—Capt. Roy Hayes of the Washington and Jefferson football team has arrived here for the season and will issue this week a call for candidates for the eleven. Practice will begin at College park next Monday and the following Thursday Coach Elbridge Greene of Harvard will be here and take charge of the men. A training table will be established and it will be the endeavor to get the men in the best shape for the opening. With the exception of Hammer's place at center, it is believed here that there will be few changes in the line this year, as nearly all the old men are expected back.

Wheeling Won at Wooster.

WOOSTER, O., Sept. 2.—(Special.)—The famous Canton-Wheelings defeated Wooster in a closely played game today. In only two innings could the visitors meet Iden's delivery with effect. Flood made some good one-handed catches. The same teams play tomorrow. Score:

M'GOVERN VERY ANXIOUS TO WIN

TERRY SAYS HE WILL FOOL SOME PEOPLE IN COMING FIGHT.

Will Start Active Training Today With Art Simms and Eddie Cain as Sparring Partners—Corbett Satisfied Fight Will Take Place.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CINCINNATI, O., Sept. 2.—Training was resumed at both Camps Corbett and McGovern today, and the young fellows and their helpers put in a hard day's work. McGovern says he will fool some people who say all he knows about fighting is to rush in with his head down. "My future depends on this battle," said he, "and I will be heard from."

Young Corbett said today that he was satisfied all around with his trip to Louisville, and that he believes the fight will come off. Young Corbett says his former manager, Johnny Corbett, can have anything he has at any time. It is believed that Johnny Corbett will take up Abe Attell and manage his interests. Young Corbett says he would like to arrange a match with Attel.

Beginning today Terry McGovern got down to hard work for his coming battle with Young Corbett. He will practically do the same amount of work as he did in preparing himself for the Sullivan fight at Louisville, except that he will do more boxing. For this purpose Art Simms and Eddie Cain were engaged. Both are much heavier than McGovern and are good, scientific boxers. Terry will box three rounds with each every afternoon for the first few days and then will increase the work to four rounds each. Hughey will not be asked to put the gloves on with his brother unless the regular sparrers are disabled.

THE FILTRATION PLANS READY TO GO TO COUNCILS

Signatures Approving Plans and Estimate Were Affixed Yesterday.

TOTAL COST KEPT SECRET

Both Recorder Brown and Director McCandless Refuse to Talk Until After Councils Get the Matter Next Monday.

City Recorder Brown yesterday afternoon approved the filtration plans which have at last been completed by the department of public works. The approval signature was made in the presence of Director McCandless of the department of public works, City Solicitor Thomas D. Carnahan, Consulting Engineer Allen Hazen and Resident Engineer Morris Knowles. A communication will accompany the detailed plans and estimate and the matter will go to select council next Monday afternoon. "They can then take it or leave it," said Director McCandless yesterday afternoon.

Director McCandless signed the plans and the various estimates before they went to the office of the city recorder. The recorder is supposed to sign with no further evidence before him than the signature of the director of the department of public works, but a long powwow was held before Recorder Brown's signature was attached.

Assistant City Solicitor W. D. Thompson was with the engineers while they were preparing their communications and advised with them as to the legal points involved.

Cost Is Being Kept Secret.

It is the intention of the city government to keep secret the estimate of the total cost until the papers go to councils. Just what the idea is is not known, but it is believed that it is to avoid any public discussion of this cost until councils get the papers and discussion can no longer be avoided.

"Nothing will be said about the estimate of the total cost," said Director McCandless yesterday, "until the figures go to councils, when they can be made public. I will not allow anything to be known about the total figures and I decline to discuss them until that time. After councils have everything before them they ought to be able to act intelligently, and I have no doubt that they will take some action. The people of Pittsburgh want filtered water, and our investigations have shown that sand filtration is the only system by which to secure such water."

"Will the engineers be taken from the pay roll after this work is finished?" was one of the questions submitted to the director.

"There are only three engineers on the pay roll. Engineers Hazen and Knowles are, of course, on the pay roll, and then there is one other engineer who has been assisting Mr. Knowles. There were several others, but they kept leaving from time to time as they secured other positions, and in the unsettled condition of things we could not hope to keep them. That is the reason we were unable to get these plans finished any sooner. So many of our engineers left us that it seriously crippled our working force, and we had to do the work as best we could."

Recorder Brown Refuses to Talk.

"I signed the filtration plans," said Recorder Brown, "but I do not want to do any talking about them. Director McCandless is in charge of that matter. It is in his department. Whatever talking is to be done about them, he will do."

As Director McCandless refuses to do any talking, it is the evident purpose of the city government to keep silent the plans until councils get them.

At the first regular meeting after the summer vacation, which will be held next Monday evening, common council will take up the resolution which was introduced there providing for the appointment of an expert or experts to go over these plans, in conjunction with Superintendent A. B. Shepherd of the bureau of water, and determine from them what the actual cost will be of building such a plant as the plans call for. It is undoubtedly the intention of the machine to have this matter referred to the rump committee on filtration in select council and prevent the experts from getting them.

EXPOSITION OPENS ITS 14TH SEASON TONIGHT

Great Blaze of Light and Grand Outburst of Harmony Will Mark the Inauguration.

The new Pittsburgh Exposition opens its doors at 7 o'clock this evening for the 14th and what gives every indication of being the most successful season in the society's history.

Sousa, with his world-famed band of 52 players, will proclaim the opening in a grand inaugural concert, and the Exposition management looks for such an outpouring of visitors as will put every previous record to shame. Twenty-five thousand persons can be accommodated in the Exposition buildings, and the sight of this throng moving in the glamor of thousands of electric lights will be one to fasten in memory.

The Exposition buildings were transformed into veritable beehives all day yesterday. As displays and exhibits took definite form it became evident that the standard set was measurably higher than ever before.

There awaits the visitor tonight a view of 127 up-to-date exhibits in brilliantly lighted new buildings that have involved an expenditure of $600,000 and are the finest for the purpose in the world. Then there are 10 special attractions, each of which is a star. All that human ingenuity can suggest has been supplied in the way of comfort and convenience, and the grandest of music will be offered in a new hall that is ideal. The musical program for tonight has been specially prepared by Mr. Sousa, and follows:

Overture—"William Tell" ..... Rossini
Suite—"Maidens Three" (new) ..... Sousa
(a) The Coquette.
(b) The Summer Girl.
(c) The Dancing Girl.
Trombone Solo—"Love's Enchantment" (new) ..... Pryor
Arthur Pryor.
Fantasie—"In the Ball Room" (Founded on famous waltz themes) (new) ..... Sousa
Burlesque Polka—"King Carnival" (new) ..... Moddleton
March—"Imperial Edward" (new) ..... Sousa
Dedicated by special permission to his gracious majesty, Edward VII.
Airs from "The Theatre" (new) ..... Monckton
Suite—"La Feria" (new) ..... Lacomb
Finale first act "La Tosca" (new) ..... Puccini
Cornet Solo—"On the Shores of the Gulf of Mexico" ..... Hoch
E. Kennecke.
Excerpts from "Lohengrin" ..... Wagner
Grand March—"Pride of Pittsburgh" ..... Sousa
Fantasie and variations on "Annie Laurie" ..... Reeves
Doodle.

The transfer system arranged for the convenience of East Enders and Alleghenians will take them to the doors of the Exposition.

FOR RENT—
If old Bill Jones was alive
To tell his stories over,
There is a new one he would tell
That would make him feel in clover,
It is about a coffee brand
That is causing great attraction,
The maker knew his business well
When he called it SATISFACTION.
It discounts all your tonics,
Your blood cures and your pills,
You drink it with great pleasure,
And the long-felt want it fills.
If you have not tried this coffee,
Don't waste another day,
For it's the finest coffee
That ever came to stay.
All grocers sell it.

STRIKERS KEPT BETTER IN LINE BY THE HOLIDAY

Labor Celebrations Seem to Have Checked Desire to Return to Work.

OWNERS SEEM CONFIDENT

Manufactories Spring Up Among the Line of the Southern Railroad. Iron Consumers Embarrassed by the Lack of Fuel.

[BY PRIVATE WIRE TO THE GAZETTE.]

New York, Sept. 2.—The usual Tuesday meeting of the anthracite coal operators was not held today. President Baer of the Reading did not appear at his office in this city, and President Fowler of the Ontario & Western was out of the city on business other than the strike.

Representatives of practically all the operating companies expressed themselves as pleased with the situation at the mines. Although none of them would give any specific information concerning plans for further reopening of collieries or other works, it was declared that the outlook was bright for increasing the daily output of the mines.

Considerable emphasis was laid on the effect of the Labor Day demonstrations, which, it was declared, had reanimated a wavering portion of the strike followers with new strike zeal. On this account, it was said, the applications for work would be much less numerous this week than they were last week.

New Manufactures in the South.

In connection with the annual report of the Southern railroad issued last week, President Spencer gives some statistics showing the extent to which manufacturing industries of every description are being located along the company's lines. During the year covered by the report no less than 66 industrial plants were either completed or under process of construction. These plants represent an aggregate capitalization of over $112,000,000, of which there were completed and put in operation during the year industries costing $80,070,950, and there were under construction industries costing $23,370,600.

Along the lines of the Southern railroad alone there were placed in operation during the year 42 new plants, with an aggregate capital of $6,670,250, and there were under construction 21 textile plants representing an aggregate capital of $6,890,100.

Booming Southern Pacific.

Southern Pacific was one of the main features of today's market. James R. Keene and his followers, who have been putting out optimistic literature bearing on the condition of the property and its bright prospects, bought heavily. When the stock began its upward course the were freely circulated that it was good for 80. Its supporters are now talking par for the shares.

James R. Keene today reiterated the statement he made late last week, which in substance was that he had not sold a share of his Southern Pacific and did not intend to dispose of any of it in the immediate future. Associated with James R. Keene in the Southern Pacific movement is John W. Gates. The interests identified with the pool represent a vast amount of wealth and are well able to send the stock up to high figures.

Republic Company's Prosperity.

The annual meeting of the stockholders of the Republic Iron and Steel Company will be held in Jersey City October 15. The next annual report of the company, it is expected, will be the most favorable ever issued. Since Alexis W. Thompson became president of the organization his efforts have been directed toward placing the company in a sound physical condition. It is due largely to the progress that has been made in this direction that the Republic is able to make such an improved showing in the matter of earnings.

Embarrassed by Lack of Fuel.

The following is from Rogers, Brown & Co.'s Buffalo office: Few iron sales are being made, but the market is very firm. Importations of foreign iron continue and these find buyers among foundaries that have found that their present supply will not cover their requirements through the rest of the year. Scarcely any domestic iron is being offered for shipment before January 1. Consumers having contracts for Pennsylvania brands, on which shipments have been suspended owing to the lack of fuel, are anxiously hoping for a settlement of the labor troubles in the coal fields, but with no immediate relief in sight, many are seriously embarrassed."

Gold Imports Expected.

Bankers appear confident that before many weeks have passed liberal shipments of gold from Europe to this country will be under way. It is because of these anticipated gold imports that bankers believe that money rates will not seek an exaggerated level during the crop-moving period. This belief is shared by the London Statist.

Short on Canadian Pacific.

Prospects of an exceptionally favorable annual statement was used as one of the main arguments in boosting Canadian Pacific shares. The opening sale was made at 114, a jump of 5¼ points as compared with the final transaction of Friday. It is interesting to note that Canadian Pacific at no time during the day sold more than fractionally above the opening price.

The belief seems to prevail that a heavy short interest exists in the stock.

E. W. HARDEN.

ANOTHER CAR COMPANY.

Will Start Operations Here With a Capital of $5,000,000.

Organization of a new steel car concern, which plans to incorporate under the laws of New Jersey with authorized capital of $5,000,000, is being completed and the industry will probably be located in the Pittsburgh district. Fourteen patents have been secured by E. A. Nesbit of Pittsburgh to cover different portions of the cars.

The cars which the new company will manufacture are said to be quite different from those now made. Cars with a carrying capacity of 100,000 pounds of coal are to be made. The proposed plant is to cover 23 acres, and its output is to be 50 cars daily. Steel cars of 50 net tons carrying capacity will also be made.

Treasury Statement.

WASHINGTON, Sept. 2.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balance, $200,471,800; gold, $114,457,000; silver, $22,882,929; United States notes, $5,530,242; treasury notes of 1890, $78,250; national bank notes, $14,725,211; total receipts this day, $2,534,847; total receipts this month, $2,804,847; total receipts this year, $100,446,351; total expenditures this day, $2,780,000; total expenditures this month, $2,790,000; total expenditures this year, $102,717,178; deposits in national banks, $126,422,252.

NEWS FROM THE MINES

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Sept. 2.—Development work on the Gold Belt at Leadville has been kept up well this summer. Several new shafts have been started and prospecting continues on the Diamond, Ollie Reed, Antelope, Forest City, Eclipse and Fanny Rawlings.

In the tunnel of the Hattie at Silverton, Col., which is now in 225 feet, an 18-inch streak of good ore has been encountered. The main value is in lead.

Another rich vein has been cut in the tunnel of the Little Jenny near Idaho Springs. The vein is wide enough to furnish a large quantity of ore for mining.

A big strike of lead-silver ore is reported in the Couer d'Alenes within 800 feet of the end lines of the Hercules.

Three feet of ore has been exposed on the Dalton and Lark at Bingham, Utah, that averages $70 a ton in copper, gold and silver.

There is some excitement at Tonopah over another big strike in the Mizpah extension, which is a mile east of the main Tonopah workings, with Mount Oddie standing between. The ledge has been cut at a depth of 480 feet.

At a depth of 50 feet up the Indianapolis, near Vernon, Utah, the new shaft has gone through a 10-foot vein, four feet of which assays 40 per cent lead, 71 ounces silver and $1.60 gold to the ton.

The strike in the Lancelle gravel mine at Makelumne Hill, Cal., is reported very rich. In a hydraulic run of 80 hours $6,000 in gold was cleaned up. The channel had been missed by the earlier miners.

The Metal Market.

The local market for copper started off weak and lower, suffering from poor demand and the usual heavy offerings. Standard spot closed at 11 7-16@11 15; Lake Superior, $11 3/8@11 5/8; casting copper, $11 1/8@11 3/8, and lake, $11 25@11 35. The English market reported an advance of 8s 9d, comparing with last Friday, making spot 67s 17s 6d and futures 62 5s 0d. The domestic output of copper for the month of August aggregated 11,469 tons, which makes the total exported since January 1, 117,580 tons, against 68,296 tons in the same period last year. Many New Records in the Wall Street Stock Exchange Yesterday

STOCKS TAKE ON GREAT STRENGTH AFTER A HOLIDAY

Reading Common the Feature of Very Active Market All Around.

RUMORS OF BIG CORNER

Pennsylvania and B. & O. Among Railroads to Feel Boom—Last Week's Good Bank Statement Believed to Be Cause of Rise.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

New York, Sept. 2.—The resumption of operations in the stock market after the triple holiday was accompanied by increased activity and strength in the entire list. More than a score of stocks established new high records, among them being Atchison common, Canadian Pacific, Cleveland, Cincinnati, Chicago & St. Louis, Colorado Southern second preferred, Detroit Southern common and preferred, Missouri, Kansas & Texas preferred, St. Louis Southwestern, Norfolk & Western, Pennsylvania, Baltimore & Ohio, the Readings, St. Joseph & Grand Island second preferred, Toledo, St. Louis & Western common and preferred, Wheeling & Lake Erie common and preferred, and the the Sloss Sheffield steel issues. Contributing factors were last week's favorable bank statement and the strength of Americans abroad. London buying on balance to the extent of 20,000 shares, chiefly Atchisons and Reading. No specific news was heard to account for the improved conditions and general enthusiasm, save in the case of the anthracite coalers concerning which there appeared to be a fast-increasing belief fostered in high circles that the strike is nearing an end.

Reading's Big Advance.

Reading common was the feature, scoring a net advance of 5⅝ points and closing at the highest figure of the day on transactions aggregating over 250,000 shares, or almost one quarter of the day's total operations. The other Reading issues made material gains, as did also Lackawanna, Delaware & Hudson, New Jersey Central and the Eries. There were rumors that the heavy buying of Reading common had unwittingly created a condition savoring of a corner. The buying of this stock came in large part from houses supposed to represent inside interests. To a great extent the strength of the western railroad stocks was carried to the better outlook resulting from the new agreement to advance grain rates to last spring's basis from Missouri river to Chicago and St. Louis points. Railroad returns as reported for July were in the main satisfactory. Such properties as Louisville & Nashville, Union Pacific, St. Paul, Norfolk & Western, Wabash, Minneapolis, St. Paul & Sault Ste. Marie, as well as a number of less conspicuous roads showed net increases. Another favorable feature which was not disregarded by students of the market was the large increase of exports over the corresponding period last year.

Strong to the End.

The list continued strong and active to the end, although the closing, save in a few instancesee, were not at best prices. The only unfavorable developments were the higher rates for call money, 6 per cent being the maximum figure, with a fractional decline at the close, and further drafts on local banks amounting to $600,000 for the crop movements in the west and southwest. Much of the day's business was credited to pool manipulation, but there was nevertheless much public and speculative interest of a genuine character. On the curb Northern Securities and the new stocks of the Rock Island Company sold higher than at any previous time. Rock Island's strength was attributed to heavy buying by the controlling interests. Stocks of the American Bicycle Company were weak throughout as a result of the day's developments, the price of the common stock selling off to 13¾, as against 8½ at last Friday's close.

Railroad bonds were generally higher in sympathy with the stock list, particularly the convertibles. Total sales, par value, $4,630,000. United States 2s and 3s advanced ½ per cent on the last call.

WALL STREET FEATURES.

Total sales for the day 1,201,700 shares.

Many new high records are made after triple holiday, Reading leading with advance of 5⅝.

Pennsylvania railroad and subsidiary stocks get good strength out of the boom.

Bank statement is responsible for better feeling of market.

An accidental corner in Reading is rumored.

Strength in grangers is attributed to probably raise of grain freight rates.

Chicago Grain and Provisions.

CHICAGO, Sept. 2.—Trading in wheat was very active today, and the market was subject to violent fluctuations. The opening was strong, with a sharp advance, but the bulge was soon lost and the market declined sharply, closing weak at ¾@1¼ net lower. Corn was strong and active, closing ¼@½ higher. Oats were dull and weak, closing ¼@½ lower. Provisions were weak, closing 5@10c lower.

Talked About in Wall Street

[BY LEASED WIRE TO THE GAZETTE.]

NEW YORK, Sept. 3.—The Herald this (Wednesday) morning says: Traders were inclined to pay little attention to the money market, so secure did they feel that time funds with which the brokers had provided themselves would be amply sufficient to take care of the speculative movements despite demands from the crops. The fact was also lost sight of that the real condition of the banks was not made apparent by the statement issued on Saturday, when the stock exchange was closed. Money for call contracts touched 7 per cent, the highest this season, but only for an instant did the speculation waver.

In some way the advance in Reading was connected with Baltimore & Ohio. The old story was revived that when the real ownership of the Reading was disclosed it would be found in the treasury of the Baltimore & Ohio. The point was made in this connection that if the Baltimore & Ohio was about to take the Reading at the prevailing high prices it would not be a very strong argument for the former company.

The advance in the other hard coalers, including Erie, Lackawanna and Delaware & Hudson was generally explained by the confident belief in the speedy termination of the strike.

There were heavy dealings in both Atchison common and preferred. New high record prices were made in Atchison common. The pool which has been operating in that stock was credited with giving out reports that it was possible the Rock Island would make a bid for the control of the property when James Speyer of Speyer & Co. returned from Europe.

Aggressive tactics were adopted by the Southern Pacific pool, and the strength displayed by Union Pacific assisted in maintaining the advances.

There was some strength given the entire railroad list by the publication of the July earnings. Louisville & Nashville, Union Pacific, Norfolk & Western, St. Paul, Wabash and the Soo line, besides some of the less important roads, made good showings, and there were substantial increases over the earnings for the same month last year. The tenor of these reports gave some substance to the advances.

The monthly report of exports and imports for the year was an unfavorable feature, however, showing a large increase in our imports and a decrease in the exports.

OVER $951,000 AHEAD.

Pittsburgh Bank Exchanges Began September With a Big Lead Over 1901.

Pittsburgh bank exchanges for yesterday were more than $951,000 larger than those for the same day last year, thus starting September off in a favorable manner. Compared with the preceding Tuesday, however, there was a loss of about $1,800,000. The local money market opened the month practically unchanged, being fairly easy in spots and quite firm in others. The rate for call and time loans remains at 5@6 per cent. The official clearing house reports in detail for the days mentioned are as follows:

	Exchanges.	Balances.
Yesterday	$35,202,667 93	$ 965,222 93
Previous Tuesday	7,1.,845 24	1,854,837 53
Last year	4,351,703 14	849,295 00
Yesterday's increase		$951,019 79.

Reports from other cities were:

NEW YORK, Sept. 2.—Exchanges, $119,506,152; balances, $6,810,184.

PHILADELPHIA, PA., Sept. 2.—Clearings, $18,354,897; balances, $2,301,777. Money, 5@6 per cent.

BALTIMORE, Sept. 2.—Clearings, $3,687,229; balances, $740,412. Money, 5 per cent.

Local Stocks Boomed and Sensational Advances Occurred in Prices

COLONIAL TRUST JUMPED TO $505, BUT REACTED $10

Westinghouse Electric Seconds Made New High Record at $116.

AIRBRAKE WENT TO $190

Switch and Signal Common Also Gained $2 50 — Window Glass Slumped at the Close—Pittsburgh Coal Active and Firm.

The market on the Pittsburgh stock exchange yesterday, after its double holiday, was unusually active and quite sensational in some of the more lively issues. Colonial Trust Company stock opened the day with sales at $500 a share, an advance of $30 over Friday's closing price and a new high record. Shortly afterward it went on up to $505, but soon turned about, selling at 502½ and 502. During the last hour it reacted still more, closing finally at $495, $10 below its highest, but still with a gain of $25. After the last sale 490 was bid and 500 asked. The reaction was due probably to profit-taking, as the stock has gone up over $100 during the last 10 days and presented a pretty tempting morsel to those who had gone in as a speculation. In view of the remarkable advance, the amount of stock that came out—40 shares only, was surprisingly small. There has been no cause, other than what the directors term "natural," assigned for the upward turns. In comparison with the other leading trust companies, using book values as a basis, the market value was considered too low by far, and an "even-

PITTSBURGH FEATURES.

Bank exchanges gained $951,019 79.

Sales Pittsburgh stock exchange 7,403 shares and $3,000 bonds.

Colonial Trust sold at $505, a jump of $35. Closed at $495.

Pittsburgh Trust made a new high record at $650.

Peoples National bank advanced to 392, a new high record.

Westinghouse Electric seconds made a new high record at 116. Closed at 115. Sales, 2,085 shares.

Westinghouse Airbrake jumped to 190 and closed at 187¾.

Union Switch & Signal common advanced $2 50 to $97.

Window Glass broke to 62½ at the close.

Pittsburgh Coal common sold 1,122 shares. Closed 29⅞.

Crucible Steel closed at 22½ and the preferred at 87.

U. S. Steel closed at 41⅜ and the preferred at 90⅛.

Pittsburgh Brewing common advanced ¾ to 30⅞.

ing up" process is one of the reasons given. Another is that the company's business is expanding in a remarkable way, and that its earning power justified higher prices for its stock. All of which arguments might as well, if not better, be used to put up the prices of some of the leading industrials. The Westinghouse group also came in for some sensational advances, Westinghouse Electric seconds going up to 116, a new high record, on sales of not quite 2,100 shares. After reaching that figure, however, the stock reacted to 114½, but finally rallied and closed firm at 115. The firsts were ½ higher at 115¾. Westinghouse Airbrake opened at 188, and went up to 190, but reacted and closed at 187¾, a gain of nearly $2 a share for the day. The advance in the electrics is due to the belief that something "big" is soon to be made known in their relation, and the same is true of the Airbrake stock, with the additional gossip of a possible increase in the extra dividends. Union Switch & Signal common was strong, probably in sympathy with the other members of the group, and advanced to 97, a gain of 2½ for the day. In the general list Pittsburgh Coal common led the business with over 1,100 shares, closing strong and ⅝ higher at 29⅞. The preferred was dull and practically unchanged. Window Glass common was quite firm until just before the close, when it became decidedly weak and finished at 62½, a loss of 1¼, on sales of 1,070 shares. The steel shares were rather quiet but steady to firm, at small changes. Pittsburgh Brewing common was fairly active and quite strong and closed with a gain of ¾ at 30⅞. The preferred lost ¼ at 47¾. River Coal issues were dull and fractionally lower. The banking group was generally firmer and higher with a quite varied demand. Bonds were dull but steady and unchanged.

The following is a complete summary of yesterday's official transactions on the Pittsburgh stock exchange. It shows the change in the closing selling prices, compared with the last preceding sale; the total sales of each security, the opening, high, low and closing prices and final bids and offers.

SEPTEMBER FURNITURE SALE

All Furniture bought during this Sale will be stored Free of Charge as long as desired.

We Prepay the Freight within 100 miles of Pittsburgh on all Furniture orders of $25 or over.

When we published our first announcement of this sale a few days ago, we stated that it would be the greatest in the history of the House. Subsequent events prove our expectations more than realized. Up to this writing, over 1,500 people have bought furniture, and this is only the fourth day of the sale. It's hard to tell whether the unprecedentedly big money savings made by purchasers, or the excellence of the furniture is causing the most comment.

10,000 Buckles—

A Broadway (N. Y.) Importer's Entire Stock of Samples and Sample Dozens—on sale in the Notion Dept. today at 1c, 5c, 10c, 15c and 25c each. The Importer had to clear them out to make room for the New Importations. We bought them for a mere fraction of their real value, and that's the way we're going to sell them. Every kind of Buckle is represented, many of the novelties being imported from Paris. There are Millinery Buckles, Cut Steel Buckles and Slides, Rhinestone Buckles and Slides, Pearl Buckles and Slides, Pendant Buckles, Ferretts, Spikes, Belt Buckles, Enamel Buckles, Dress Buckles, Jet Buckles, Gold Buckles, Gun-Metal Buckles, Silver Buckles, etc., etc. Take your choice from all at

1c, 5c, 10c, 15c and 25c Each.

But, while there are 10,000 Buckles to select from, of some there are only one of a kind, and, as many are worth 4 and 5 times the price we now ask, they'll go only too quickly, so the early comers will fare the best. It's a rare chance, indeed, for Milliners and Dressmakers.

Fall Carpets and Rugs--We Saved 25 Per Cent.

On our Fall Stock by placing our orders at a time when the mills hadn't many contracts on hand. This gives us a double advantage. We not only own the standard makes of Carpets and Rugs for less money than other retailers, but we also show a complete line thus early, while others, owing to the fact that the mills are now very much rushed, have difficulty in getting their orders filled.
